BUDGET BATTLE

IKE SEEKS A SHOWDOWN

Water Priority Is Treated Gingerly

The Missouri Basin Inter-Agency Committee Wednesday trod gingerly on the volatile subject of priority for water use but promised to give the matter full treatment soon.

The subject is slated for a thorough going over at the September meeting of the co-ordinating committee in Helena, Mont.

It was touched on only lightly at the 94th meeting of the MBIAC in Lincoln while congressional hearings were going on simultaneously in Washington on the same subject.

Some South Dakota interests, primarily co-operative power distributors, have condemned the large releases of water in summer seasons for navigation purposes. They have contended that such releases have been at the expense of power users whose peak load is in the winter months.

DeBoer Triggers Discussion

The MBIAC discussion was touched off by a paper by Dewey J. DeBoer of the Nebraska Public Power System. He said irrigation demand for well pumping was 28 per cent greater in summer than in the winter. He called for a 230-kilovolt transmission line from Fort Randall Dam in South Dakota to Grand Island, Neb., to help supply the power.

DeBoer said the NPPS was willing to pay firm power prices for the output generated by the navigation releases but the transmission line was essential.

Referring to the Washington hearings, DeBoer said there have been claims that the Army Corps of Engineers is not using the water in the giant Missouri reservoirs wisely.

"I'm concerned about this controversy," DeBoer said. "Congress may say 'a plague on both your houses.'"

DeBoer said there is need to coordinate all power facilities in the basin. Such action would utilize the thermo capacity of steam plants to supply up-river needs in the winter and take care of downstream demands in the summer.

What DeBoer was advocating was a power pool similar to that working effectively in the northwest part of the country.

Kenneth Holmes, Plankinton, S. D., asked DeBoer if the pooling would be in an even exchange of kilowatts.

DeBoer said plans were underway to provide the eastern South Dakota co-operatives with an even exchange for the next three years, or until the co-ops got a new block of power.

South Dakota Opposed

Opposition to the proposed Nebraska connection with the hydroelectric supply on the Missouri has come from some South Dakota sources which object to heavy exporting of the power. It has also been reported that Nebraska has failed to obtain the line because of the opposition of its congressional delegation to public power developments in other states.

DeBoer pointed out that the NPPS summer demand is 28 per cent higher than the winter demand. Growing summer irrigation, air conditioning and other "hot weather" load demands cannot be met with additional steam generating plants, he said.

"Our only answer," he said, "is more low-cost hydroelectric power."

Nebraska now has two 115,000 volt connections to Missouri River power sources. Both of these, DeBoer said, are short distance lines and connect with only the fringes of the NPPS system.

'Stopgap' Line

A third 115,000 volt line from Gavins Point to Neligh is being built, he said, to help this year's summer irrigation demands but this is only a stopgap measure.

Nebraska with 2,300,000 acres of land now under irrigation, DeBoer said, ranks among the top five states in development of irrigation farming. There are now 20,000 irrigation wells in the state, he said, and these farmers are now producing more than half of the state's total corn crop.

The irrigation pump load last summer, DeBoer said, totaled 74,099 kilowatts, equal to the combined normal needs of Lincoln, Grand Island and Hastings. By 1959, he predicted, this load will increase to 100,000 kilowatts and should reach 200,000 kilowatts by 1963.

Vic Comments

Nebraska Gov. Victor Anderson commented some of the "sister states are opposed to Nebraska getting high voltage transmission lines because we are a public power state."

He asked DeBoer: "Isn't it a true statement that we are agreeable and that we don't want more than our fair share?"

DeBoer responded: "We are not asking for a single kilowatt hour of power beyond our fair share."

South Dakota Gov. Joe Foss said feelings expressed in the Washington hassle were not unanimous. He said his representative before the Washington hearings, water resources engineer J. W. Grimes, does not say all of the water should be for power.

"We see the need for multiple purposes of the dams," Foss said.

"If we don't start throwing bricks at each other we can come close to some agreement."

Foss, a faithful attendant at MBIAC meetings, took a good natured jibe at some of his fellow governors with the aside: "All the states, if possible, should have all their governors at Missouri Basin state meetings."

The meeting here was attended by Govs. Anderson, Foss and John E. Davis of North Dakota.

Davis agreed with Foss that North Dakota's representative in Washington was intent on leading the opposing sides into a better understanding.

AREA GOVERNORS MEET IN LINCOLN

President Will Go To People

Series Of Radio-TV Talks Planned To Head Off Cuts

From Press Dispatches

WASHINGTON — President Eisenhower Wednesday launched a showdown battle with Congress over his budget and legislative program and disclosed his plans to fight it out in a series of radio-television speeches.

The chief executive, in combat condition after his Georgia vacation, told Republican legislative leaders he will carry directly to the people his struggle to prevent threatened deep cuts in his 71 billion, 802 million dollar budget.

News Secretary James C. Hagerty said the timing of the radio-TV addresses is being worked out and that the President will seek support for his spending and legislative proposals "every time he talks in public from now until he wins the fight."

And in the White House rose garden, where he talked to the National Council of the League of Women Voters, the tanned, vigorous-looking President voiced a crisp appeal for support of his foreign aid program, now under heavy congressional attack.

He declared: "You can't allow freedom to be pushed back to the shores of the United States and keep freedom at home. Unless the United States understands this, the future doesn't look so bright. Let's not throw away the engines of this ship of state."

Mounting Demands

Mr. Eisenhower took note of the mounting demands on Capitol Hill for tax cuts and said he hopes that by the time he leaves office in 1961, world peace will be secure enough to justify substantial tax relief.

The President added: "I would like to go out of office with an even larger tax cut than we put out in 1954."

Sen. Lyndon Johnson of Texas, the Senate majority leader, said there is general confusion within the Eisenhower administration, but he declared one thing is apparent in public reaction:

"Congress has a clear and firm mandate to reduce this administration's budget."

Knowland Reports

Sen. Knowland (Calif), the Senate Republican leader, reported after a white house conference there was a general consensus that the President should go on the air to discuss the budget and foreign aid.

Democratic Leader Johnson, in discussing what he called confusion within the administration, pointed to stands taken by Secretary of the Treasury Humphrey and Secretary of State Dulles.

Johnson said Humphrey had said that unless the level of government spending is reduced, there will be a hair curling depression.

But Dulles, he said, argued that if the senate did not restore 29 million dollars cut out of the State Department appropriation by the house, this would "breach gravely the front line of defense."

Johnson told the senate that Eisenhower's budget for the year beginning July 1 is eight times the size of the nine billion dollar budget submitted by President Franklin D. Roosevelt in his last peacetime year, 1940.

—30 Miles From London—

British Plane Crash Kills 31

35 On Viking Included Troops, Families Headed For Libya; Craft Explodes In Air

BLACKBUSHE, England (AP)—A British military transport plane headed for North Africa crashed in flames here Wednesday night soon after taking off. Thirty-one persons were killed.

The twin-engined Viking plane was carrying servicemen and their families to Libya.

Officials said the 35 persons aboard included two children.

The plane plummeted to the ground in flames after exploding high above this English airfield in the flat countryside about 30 miles from London. Seconds before the crash it appealed by radio for permission to land.

It circled the field once, then one engine cut out and there was an explosion, airport officials said.

Fire engines from adjoining counties rushed to the scene with flame-fighting foam equipment. Sixteen bodies had been taken from the wreckage before midnight.

The Air Ministry in London said: "The aircraft was a Viking belonging to Eagle Aviation Co. There was a crew of five and the passengers, numbering 30, were service men and families.

"The Viking took off from Blackbushe for Lyon, France, as first stop. She took off and one of the engines cut. A flash was seen in the sky later. She crashed two miles from the runway.'

Four victims, one a 4-year-old child, were rushed to a military hospital near the village of Hartley Wintney. All were burned badly. Company officials said several hours after the crash they were the only survivors.

Eagle Aviation Co. holds a contract to ferry troops and equipment to the Mediterranean and Middle East areas.

Defendant 'Felt' She'd Kill Mate

Conversation With Mrs. Warren Told

By VIRGIL FALLOON
Star Staff Writer

A South Dakota witness testified in the Helen F. Warren murder trial Wednesday that the defendant told her just before Christmas that "at times it's so bad, I feel I'm going to kill him."

Mrs. Warren is charged in Lancaster District Court with killing her husband, Maurice R. Warren, 33, with "deliberate and premeditated malice" on Jan. 26.

The state witness, Mrs. Anthony Poelstra of Armour, said that Mrs. Warren, during a visit with her eight-year-old son by her first marriage, stated she "wanted to get away from Maurice and needed help."

Mistreated Her

Mrs. Warren said her husband had been beating her, mistreating her, and pulling her hair, the witness related.

Mrs. Poelstra also told of a telephone conversation with Mrs. Warren after 5 p.m. on Jan. 25 in which the Lincoln woman said "I'm afraid I'm going to do what I told you at Christmas" and that she almost did it "two night ago."

The witness related that Mrs. Warren told of an argument with her husband that afternoon.

On cross-examination, Mrs. Poelstra testified that Mrs. Warren told her that she was "afraid that Maurice was going to kill her."

'Got To Have Help'

Mrs. Warren kept saying "I've just got to have help" and was sobbing over the phone. Mrs. Warren hung up because "her husband was just coming home," the witness said.

Mrs. Warren's first son was placed in the Poelstra home for foster care until he could be placed in a state institution for retarded children, according to court testimony.

The first state witness, Mrs. Grace Warren of Montrose, mother of the slain man, testified that her son's first marriage with the defendant lasted about two months before they separated.

She testified she attempted to discourage a remarriage but that Helen Warren assured her this was the "final one," saying "I can't get along with him but I can't get along without him."

'Neglected' Home

In visiting her daughter-in-law's home, Mrs. Warren testified that the baby was neglected and "true story romance magazines were strewn around the house."

On cross-examination, Mrs. Warren admitted that her son served 10 months in the South Dakota penitentiary for bad checks, but "couldn't recall" any other trouble with the law.

Henry Nissen of 2133 St. Mary's, car salesman with Warren, testified that during the afternoon of Jan. 25 Warren went out to purchase "some magazines and cosmetics" following a call from his wife and later went home to change his shirt.

At Steak House

Edward Itzen, marshal of West Lincoln, testified that he observed Warren and a man and woman

Showers For Central, East Are Forecast

Scattered thundershowers were predicted for the central and eastern portions of Nebraska Thursday following rain and hail storms at Norfolk and Grand Island Wednesday afternoon.

At Grand Island a sudden 30-minute downpour stalled traffic and turned streets into veritable rivers. Water flowed eight to 10 inches deep down South Locust St. which drains much of the business district.

Light hail fell during the storm which officially brought .37 of an inch at the weather bureau north of town, but city rain gauges measured as much as 1.3 inches.

Norfolk Hail

Norfolk had hail up to one-eighth of an inch in diameter and gusts of wind up to 36 m.p.h. during heavy rain showers.

Norfolk's 20-minute downpour brought an official .95 of an inch of rain and other estimates were from one to three inches.

Earlier rains brought 1.41 inches of precipitation to Loup City and .60 of an inch to Burwell.

Other precipitation in the state Wednesday night included Hastings, .71, and Bloomington, .68. 1.56; Scottsbluff, 2.33; Sidney, 2.58,

Highs in the state Thursday were expected to be 75 to 85 compared with Wednesday's highs of 84 at the Lincoln Airport to 73 at Imperial.

Grand Island had already recorded 3.49 inches for the month of April and other monthly reports included Lincoln, 2.20; Omaha, 2.37; Norfolk, 1.33; North Platte, 3.07; Valentine, 2.12; Chadron, 1.56; Scottsbluff, 2.33; Sodney, 2.58, and Alliance 2.33.

The Weather

NEBRASKA: Partly cloudy through Thursday night; scattered thundershowers central and east mostly afternoon and evening; continued warm; highs Thursday 75 to 85.

6-Year-Old Girl, Hurt In Accident, Satisfactory

A 6-year-old Lincoln girl was listed in satisfactory condition at a local hospital after she was injured when in collision with a car Wednesday afternoon at 26th and J.

Police said Karen Rustermier of 817 So. 29th was attempting to cross the street when she was in collision with a car driven by Ben Sobotka, 17, of 2735 Holdrege. The girl suffered head injuries, police said.

MILFORD FUND $11,392

Another $2,000 brought the Milford disaster fund total Wednesday to $11,392.10. Previously reported was $9,440.10.

Among the contributors to the fund were Gold and Co., $500; IGA Food Stores, $250; Wadlows Mortuary, $100; and Lancaster County Beer Dealers Assn., $100.

Contributions should be made payable to "City of Milford Disaster Fund" and may be sent to

—Nomination—

Block Hit By McLeod

Ambassador Post Is Opposed By Demo Leader

WASHINGTON (AP) — Scott McLeod's nomination as ambassador to Ireland ran into opposition Wednesday from the chairman of the Senate Foreign Relations Committee.

McLeod

Sen. Green (D-RI) said in his personal opinion the controversial State Department security chief did "not seem to measure up" to standards the White House should set for an ambassador.

Green made known his unexpected opposition to McLeod nomination as his committee wound up a second day of closed door hearings on the appointment. He declined to predict, however, whether other senators would join him in rejecting McLeod.

Sen. Bridges of New Hampshire, chairman of the Senate Republican Policy Committee joined Republican leader Knowland (Calif) in forecasting approval of the 41-year-old ex-FBI agent.

"I think that McLeod is a very competent individual and has the experience and temperment to be a good ambassador," Bridges told a reporter.

Security Boss

McLeod served as Bridges' administrative aide for three years before becoming State Department security boss in 1953.

Green said McLeod "did not make a very good case" before the committee. But McLeod said he felt "very good" about his answers to committee questions. He added confidently:

"I see no reason why they won't confirm me."

A showdown vote on the nomination was set for Thursday morning at 10 a.m.

McLeod was before the senators for two and a half hours Wednesday. Sen. Morse (D-Ore) was reported to have fired more than 50 questions at him during the session.

Republican committee members appeared to be standing firm in support of Eisenhower's choice for the Dublin post. These included Sens. Smith of New Jersey, Capehart of Indiana and Hickenlooper of Iowa.

Most Democrats, including Sens. Kennedy of Massachusetts, Mansfield of Montana, Sparkman of Alabama and Morse refused to say which way they would vote.

Sugar Ray KOs Fullmer

Sugar Ray Robinson won the middleweight boxing championship for the fourth time Wednesday night by knocking out Gene Fullmer, the champion, in the fifth round of a televised bout at Chicago. For details, see Sports Page 21.

Beck Told To Face New Quiz

WASHINGTON (AP)—Dave Beck, besieged boss of the Teamsters Union, Wednesday was directed to appear before the Senate Rackets Committee next Wednesday for further interrogation.

The committee said it has "further derogatory evidence" to present concerning Beck's alleged "use of the power of the union to further his own financial interest."

Chairman McClellan (D-Ark) said he expected to call 8 or 10 other witnesses.

"It is very important that any information the committee has regarding Mr. Beck's misuse of union funds, or misuse of his position as president of the largest union in the United States, should be developed publicly," McClellan stated.

Beck faces an AFL-CIO Executive Council trial May 20 on charges that he has brought the labor movement into disrepute.

In A Body

He announced Wednesday the Teamsters Union Executive Board will appear in a body before an AFL-CIO disciplinary group Monday to demand a bill of particulars on charges that corrupt elements dominate the organization.

Until now it had been uncertain whether any representative of the giant union would show up for the hearing. Monday's meeting will be an important step in proceedings which could lead to ouster of the Teamsters from the AFL-CIO unless they change their course and leadership.

Beck notified Al Hayes, chairman of the AFL-CIO Ethical Committee, that the full membership of the Executive Board would appear before the committee "to determine if our rights...will be accorded recognition."

BIG INDUSTRY FOR KEARNEY?

Tvrdik Hits Setup Of Committees

Favors Return To Nine Members

By BETTY PERSON
Star Staff Writer

The dean of the Nebraska Legislature, Sen. Charles Tvrdik of Omaha, expressed dissatisfaction Wednesday with the present committee system of the state's legislative body and said he will recommend that it return to its former system of nine-member committees.

Following the recommendations of an interim Legislative Council study, the 1957 Legislature increased its standing committees by one and cut down the membership of each committee from nine to seven members. The Budget Committee has eight members. The new committee added was Miscellaneous Subjects.

The Omaha senator, who has served in every session of the unicameral Legislature, said he was one of those serving on the council study group and favored the change at that time.

What Accomplished?

"The sole purpose of the revision," Tvrdik commented, "was to expedite matters and alleviate the work load of the individual members. While we've finished our committee work somewhat earlier, what have we accomplished?"

Sen. Tvrdik said he believed this 68th session of the Legislature was going to be one of the longest in the state's history.

Expressing concern over the large number of bills which have been reported out of committees to the floor of the Legislature, Tvrdik said, "It's easier to influence four senators than it is to influence five."

Quorum Troubles

In addition to this, the Legislature's senior senator said that during this session the committees have had difficulty getting a quorum together when three or four of their members have been busy presenting bills before other committees.

The result has been that some committees have held public hearings with only two or three senators present, Tvrdik added, a practice he condemned.

The Omaha senator commented that every Legislature "has the right to operate under what rules it wants," but said he will bring up his suggestion "that we return to our former method of operation" toward the close of the present session.

Historians Visiting Here Wanted Norris On List

By BARBARA HEMPHILL
Star Staff Writer

"My first thought when I saw the list of 'the five outstanding' U.S. senators was that George Norris of Nebraska should have been on it," a professor of American history at UCLA said here Wednesday night.

He was Dr. John Caughey, a visiting professor at the University of Wisconsin this semester, who is in Lincoln to attend the Mississippi Valley Historical Assn. meeting.

Many of his colleagues agreed that Norris should have been included among the five men a special Senate committee headed by Sen. John Kennedy (D-Mass) picked as "outstanding senators."

Number One Or Two

Dr. Caughey, who once lived in Nebraska and attended Lincoln High School, said:

"I would have put Norris Number One or Two on the list. He made more positive contributions to the development of the nation than almost any other senator.

"Several of those who were named apparently were selected because of their outstanding contributions to their own sections of the nation, so perhaps Norris was omitted because his interests were not localized enough.

"But I honor him all the more because he always took the broad view."

The special Senate committee announced its "unanimous" selection after polling historians, political scientists and other scholars.

Results of the poll were not announced, but Washington sources indicated they did not coincide completely with the selections. Named were Henry Clay of Kentucky, Daniel Webster of Massachusetts, John C. Calhoun of South Carolina, Robert M. LaFollette Sr. of Wisconsin and Robert A. Taft of Ohio.

Fred A. Shannon of the University of Illinois, in Lincoln for the Mississippi Valley Historical Assn. meeting, said the selections apparently were made with an eye to trying to please nearly all sections of the country and nearly all political philosophies.

He and a University of Kentucky professor, Thomas D. Cark, who is president of the historical association, said they voted for Norris in the poll the Senate committee made and had heard other convention delegates say they had.

Only LaFollette

Prof. Shannon said LaFollette was the only senator he voted for who was selected. Prof. Clark said Clay was the only one of his choices who was named.

Both said they voted for Stephen A. Douglas of Illinois who, along with Norris, failed to be selected.

The historical association convention, which will continue at the Cornhusker Hotel the rest of the week, opened with registration and an executive committee meeting Wednesday evening.

Schools, City To Discuss Parking Fines

Plan Meet To Work Out Details

By BILL DOBLER
Star Staff Writer

A joint meeting of the City Council and Board of Education is being planned to discuss details of the parking ticket revenue problem.

Mayor Bennett Martin said the meeting was requested by Superintendent of Schools Dr. Steven N. Watkins and Board Attorney Willis Hecht. The Council will discuss the matter Monday, Martin said.

School officials did not say exactly what they wanted to discuss with the Council, Martin said, but they expresed a belief that there might be areas of misunderstanding which should be cleared up.

Schools Concerned

Apparently, Martin said, the school officials are concerned over their position in regards to collection of overtime parking fines from previous years.

The State Supreme Court has ruled that all overtime parking fines must go to the schools. Since that ruling, there has been a question as to the schools' rights to such fines over the past years.

Lincoln School District officials have said they may legally be required to attempt to collect past fines even though it might not be what the Board personally wanted to do.

Lincoln has now changed its parking fine system to include only a five cents fine and 95 cents in court costs.

Previous to the high court's ruling, income from fines was split 50-50 between the city and school.

Fairbury Elks Move Into New $135,000 Building

Members of the Fairbury, Neb. Elks Lodge No. 1203 moved into their $135,000 building at Sixth and G Streets Wednesday. Construction of the brick and stone building started in April, 1956. The building, facing east, has the latest air conditioning and heating systems. The club's reading room is located in the south part of the building. Dedication of the 116 by 85 foot building will be held at a later date. Harry Stearms served as chairman of the building committee. Other committee members are Leo Mergen, C. B. Mickelsen, C. F. Black and Glenn Waugh. (Photo Special to The Star)

Two Omaha Cops Relieved Pending Probe Of Burglary

OMAHA (AP) — Two policemen were relieved of duty by Chief Harry Green Wednesday night pending an investigation of a grocery store burglary last November.

The chief identified them as Patrolmen Curtis Moore and Theodore Donovan.

Green acted after being told by George Storms, an old friend of the chief, that two policemen were seen at the store the night it was burglarized.

The chief said he had asked Douglas County Attorney Eugene Fitzgerald to make an investigation and had assigned his own special investigator, Walter Wilson, to conduct his own investigation and co-operate with Fitzgerald.

Saw Cops Enter

Storms told Green that last Nov. 2 he was awakened by the slam of a car door and got up to see two policemen in uniform leave their car and go to the store front door.

The men, Storms said, appeared to "work at the door" for a while and then left.

Storms said he dozed off but again the slam of a door woke him.

Went To Cash Register

He said he got up again and saw a police car, lights out, stop and two policemen get out and go to the store door. This time, he said, the men went in and one, with a flashlight, went to the cash register and the other to the meat counter.

He said he saw a box filled and then placed in the car.

Storms said his wife and son watched with him and that his son had called police headquarters. Storms said he then telephoned Charles Fellman, owner of the store, and told him of the burglary.

Told Owner

He said he told Fellman he saw policemen enter the store but asked Fellman not to mention his name.

Fellman reported some cash and about $100 worth of cigarettes missing and said Wednesday that he and Storms had decided not to say any more because they "feared reprisals."

Storms related that after his son called headquarters, the car he had seen at the grocery store was one of the police cars arriving along with others, apparently in response to the call.

UNUSED PRESIDENTIAL YACHT TO BE MOVED AS ECONOMY MEASURE

WASHINGTON (AP)—The White House said Wednesday that for the sake of economy the plush presidential yacht Williamsburg will be moved in June from her mothball anchorage here to New London, Conn.

President Eisenhower has not used the Williamsburg since early in his first term. The White House said her annual upkeep bill is around $12,000, and that a considerable portion of that can be saved by shifting her to New London.

She will be maintained there along with other vessels as a gunboat in the reserve fleet, for coastal patrol duty in any future mobilization.

White House Press Secretary James C. Hagerty said he could not give a specific dollar saving.

With reference to another mode of White House transportation, Hagerty said some practice helicopter landings may be made in the yard of the White House next week and in the Ellipse Park south of the grounds.

The White House has two helicopters costing $60,000 each on order and has said it plans to use them in a civil defense evacuation test later on and also to carry Eisenhower over traffic to Washington National Airport.

Texas Town Gives Up Fight Against Floods

DALLAS (AP)—Residents of the lower Sabine River town of Deweyville Wednesday laid plans to abandon their community as the swollen river reached record heights upstream.

"There's no use fighting this thing again," said Sheriff Curtis Humphreys. The town was inundated in a 1953 flood.

The misery of the 1,000 Deweyville residents was added to that of 9,000 other Texas flood victims the Red Cross estimates have fled their homes during 14 days of heavy rains and floods.

Rivers east of the Sabine, which forms the Texas-Louisiana border, leveled off Wednesday and the flood threat to cities and towns eased.

Dog Bites Girl As She Delivers Her May Baskets

At least one young Lincolnite found more than a little difficulty delivering May baskets Wednesday, May 1.

She is 9-year-old Karen Schertzer of 1338 No. 21st, who was bitten by a neighbor's dog in the back of her left knee when she was about to place a May basket at the front door of a friend's home.

She was treated and released from a local hospital.

Warren Trial Statements Differ

(Continued from Page One.)

companion at a steak house from 9:30 to 12:30 p.m.

He testified to seeing Warren having "two or three drinks" from a pint bottle of whiskey on the table, but that the companions had "one each."

Police Desk Sgt. Floyd Orr said he received a call about 2:50 a.m. from a woman who identified herself as Helen Warren after saying "I think I've just killed my husband."

In Bedroom Bleeding

Cruiser Officer August Pollard, the first to arrive at the Warren home at 4626 Calvert, said a lady met them at the door and pointed to a bedroom saying "He's in the bedroom, bleeding."

Pollard said an ambulance and other police and law enforcement officers were summoned as the investigation began.

At the conclusion of Wednesday's session, Judge Harry Spencer indicated that Thursday's court session would run through the lunch hour but would be recessed about 1 or 1:30 p.m. until Friday morning.

Judge Spencer indicated the half-day recess is for reasons not related to the Warren trial.

Romance Magazines

Opening statements to the jury by Scheele characterized Mrs. Warren as having "almost a phobia" for romance magazines and cosmetics and her husband as being "devoted to their son."

Scheele said Warren, a car salesman and a "jolly sort of man" had drank in his early life, but had "cut his drinking after the baby was born."

In contrast, the defense attorney said the slain husband had a "ferocious character" and "acted with great violence and had choked his wife a number of times until she was practically unconcious."

Says 'Forced To Remain'

Walker described their married life as "turbulent" and that Mrs. Warren had "made desperate attempts to separate herself" from her husband, who "forced her to remain with him."

The Warrens were married in June, 1953, separated after several months and were divorced the following February, but were remarried July 11, 1954, at Sioux Falls, S. D. Their son was born May 9, 1955.

Scheele charged their marital difficulty in part was Mrs. Warren's jealousy of her husband's devotion to their son and his feeling that she should devote more time to the boy and less to romance magazines.

But, Walker described Warren's reputation in his hometown and in South Dakota for "belligerency, turbulence, violence, and drinking."

He said the Warrens moved from town to town, the husband working as a car salesman.

In separation attempts, the defense attorney said, Mr. Warren "kept taking her with him to new towns."

He said there would be a doctor's testimony that she "was almost hysterical in wanting to get away."

Charges Talked Of Killing

Scheele told the jury of Mrs. Warren's conversations with a South Dakota woman stating that she was going to kill her husband, one conversation just prior to the fatal bludgeoning on Jan. 26.

Scheele described the four blows struck by Mrs. Warren with a nine-pound sash weight which left the floor, bed, ceiling, and walls "splattered" with blood. She had gotten the weight from the basement about three hours previously, putting it in a dresser, he said.

In contrast, Walker said defense evidence would show that Warren, returning home after "drinking nearly a pint of whiskey," had "attempted a felonious assult of sodomy after mauling her in the bedroom."

Defendant "Blacked Out"

Mrs. Warren was "driven to hysterical, temporary insanity" and "blacked out" during the commission of the crime.

The defenses of self-defense and temporary insanity are being raised for Mrs. Warren by her counsel.

As a car salesman, Warren was able to "go home several times a day to check on his wife so that she couldn't leave him," Walker said.

"This was the general pattern in town after town," Walker said. The Warrens lived during the marriage at Mitchell, Sioux Falls and Montrose in South Dakota and Norfolk and Lincoln.

Dr. Forrest In Hospital

Dr. Dahl Takes Over Duties At Wesleyan

Dr. A. Leland Forrest Wednesday was reported recovering from surgery at a Lincoln hospital. The Nebraska Wesleyan University chancellor was hospitalized over a week ago and underwent surgery Sunday.

Meanwhile, Dr. Sam Dahl, Dr. Forrest's administrative assistant, and dean of the college assumed Wesleyan's administrative responsibilities pending Dr. Forrest's return to his duties.

Hospital officials said Dr. Forrest was resting comfortably Wednesday and in fair condition.

University officials refused to make any further comment on the nature of Dr. Forrest's illness.

Dr. Forrest, who is 44, came to Nebraska Wesleyan as dean in 1951 and became chancellor in 1954.

His assistant, Dr. Dahl, joined the Wesleyan staff in 1952 as head of the department of education after serving for five years as supervisor of secondary education for the State Department of Public Instruction.

He replaced Dr. Forrest as dean of the college when Dr. Forrest became chancellor.

Two Chute To Safety After Plane Blast

. . . 3rd Man Sought

PITTSBURG, Tex. (AP) — Two men parachuted to safety Wednesday night after an Air Force plane exploded in the air and crashed near here.

The State Highway Patrol said a third man was being sought.

The patrol said the plane was based at Little Rock (Ark.) Air Force Base. The type of plane and the names of the airmen involved was not immediately known.

Personnel at Barksdale Air Force Base, Shreveport, La., about 200 air miles southeast of here, said they observed a bright flash in the sky about the time of the crash.

Pittsburgh is about 75 miles southwest of Texarkana, Ark.

Mrs. Morris Dies

Mrs. Veronica Morris, 66, of Ashland, died early Thursday morning in Lincoln. She is survived by her husband, S. F. Morris.

JORDAN FEASTS

. . . Crowds Forget Crisis

AMMAN, Jordan (AP)—Feasting, frivolity and finery were the order of the day in Jordan Wednesday.

The political crisis which rocked the country recently, and which King Hussein says is ended, appeared forgotten by crowds celebrating the three-day feast that marks the end of the month-long Moslem fast of Ramadan.

At dawn, King Hussein headed a motor procession to a mosque for prayers. He was saluted by a guard of honor and met by the acting Army chief of staff, Maj. Gen. Habes Majali, and other aides.

Bishop Kucera Reported 'Fair'

Bishop Louis B. Kucera of the Catholic Diocese of Lincoln was reported in fair condition Wednesday following a heart attack which he suffered Monday morning.

Diocesan officials said the bishop was expected to leave the hospital soon and was expected to be able to attend the reception to be held May 23 for the newly-consecrated auxiliary bishop for Lincoln, Bishop James V. Casey.

Bishop Kucera has had two previous heart attacks in the past year—the first in April, 1956, and the second in November.

½-Mill Levy's Value To Med School Told

OMAHA (AP) — The Legislature's Revenue Committee Wednesday was told the special one-quarter mill levy has proven "a magnet" in attracting private institutions to affiliate with the University of Nebraska Medical Center.

Dr. J. P. Tollman, dean of the medical college, made the comment in answering a question by Sen. Bixler of Harrison, chairman of the committee.

About 24 legislators and their wives were guests of the college and the Nebraska State Medical Association for a tour and dinner at the center.

The Revenue Committee, Senator Bixler explained, was seeking information regarding LB 560, a bill introduced at the urging of Governor Anderson and calling for the removal of the special levy.

The levy provides about 750 thousand dollars per year in building funds for the medical center. It was passed by the 1953 Legislature with the ultimate purpose of raising an eventual total of six million dollars.

Sen. Bixler asked whether the proposed unit 3 of the University Hospital (to be built out of money provided from the special levy) might be used for additional bed space, and Dr. Tollman replied that the money will add clinical and classroom space, not more beds.

Bixler then asked if there was danger if the levy was repealed the College of Medicine might lose its accreditation. Dr. Tollman said that was true.

J. Lloyd Snyder Graveside Rites Set For Friday

Graveside services for J. Lloyd Snyder of Hyannis will be 9:30 a.m. Friday in Lincoln Memorial Park.

Funeral services will be held 9 a.m. Thursday in Hyannis.

Mr. Snyder, a Hyannis rancher, died Tuesday.

Surviving are his wife, Edith; and a son, James, both of Hyannis.

Lewellen Voters Face School Issue

LEWELLEN, Neb. (AP)—The Lewellen rural high school district will hold a special election May 20 on a proposal to issue $278,000 in bonds for a new high school building.

The petitions asking for the election were circulated by the Parent-Teachers Assn., and then presented to the board of education.

Supt. Justin Blewitt said the present high school is now "crowded in with elementary grades in a brick structure built in 1924."

The financing of the bond issue probably would result in a 6-mill levy increase.

U.S. Troops Have 8-Inch Atom Guns

WASHINGTON (AP)—The Defense Department officially confirmed Wednesday long published reports that United States forces have an eight-inch atomic artillery shell.

An Army training circular, marked "for official use only" until Wednesday, also disclosed that the Army has both eight-inch guns and eight-inch howitzers capable of firing nuclear warheads. And the Marine Corps has said that its reinforced battalion, now on board ships of the 6th Fleet in the Mediterranean, is equipped with eight-inch howitzers.

Reports that the Army was seeking something lighter and less cumbersome than its huge atomic cannon were published as early as 1955. But formal confirmation that atomic charges had been packed into eight-inch shells has been withheld. The Pentagon's written statement that eight-inch atomic shells are in existence was made available in response to inquiries that have been made by reporters for several years.

The big atomic cannon is a 280 MM weapon, equivalent to about 11 inches. Like the larger weapon, the eight-inch guns can fire either atomic or conventional high explosive shells. The Army has long since halted production of additional 280 MM atomic cannon, although the huge guns are still in operation and some of them are deployed overseas.

Charles Schmale Funeral Saturday

Funeral services for Charles N. Schmale, 84, of Rt. 6, Lincoln, will be held 10:30 a.m. Saturday at Hodgman-Splain, with Dr. Frank A. Court officiating.

Burial will be in Wyuka.

Mr. Schmale is survived by his wife, Effie; and a daughter, Mrs. Lillie E. Smith of Colorado Springs, Colo.

Wilton Dies

LIVERPOOL, England (AP)—Robb Wilton, radio comedian who helped Britons laugh during the hardships of World War II by portraying a fictious character "Mr. Muddlecome," died. He was 76.

Campbell Soup Takes Option On Kearney Land

May Build 1,500-2,000 Employe Plant At Site

By BETTY PERSON
Star Staff Writer

Gov. Victor Anderson announced Wednesday that the Campbell Soup Company of Camden, N.J., has taken an option on 350 acres of land at Kearney as the possible site for a food processing plant which could eventually employ 1,500 to 2,000 people.

The acreage, now owned by the city of Kearney, is situated approximately four miles east of the city in the Platte River valley.

The governor said it is hoped that the tests now being conducted by the company will be "so favorable" as to warrant construction of the large food processing plant.

3-Year Experiment

Anderson explained the Campbell people still have the coming season to complete a three-year experiment in Nebraska with tomato test plots, the first two years of which (1955 & 1956) have proved encouraging.

Anderson said the plant "will represent a double impact on our economy by virtue of both the payroll for production workers as well as the cash returns to farmers in the irrigated areas of central Nebraska."

He added that if all goes well for the company's plans, it may be that, in addition to several thousand acres of tomatoes, other vegetables such as sweet corn, carrots, asparagus and potatoes ultimately will be grown under contract here.

Slow Affair

C. V. Price, chief of the Division of Nebraska Resources, noted that negotiations with Campbell have been underway since 1951 and said this again illustrates the point that accomplishment in industrial development work often comes slowly.

It was through Price's efforts that the Campbell Company first became interested in Nebraska.

"We have always put most of our effort into attracting the real 'blue chip' firms," Price said, "and companies of that type, such as Campbell Soup, simply don't make hastily-considered plant investments."

The Resources chief said a small "pilot" operation would be established at the Kearney site this summer in one of the old air base buildings. He explained this temporary plant will process the production from this year's tomato test plots, expected to include several hundred acres.

Kearney Praised

Price lauded the "energy and co-operative spirit of the Kearney people" which he said played a strong part in the plans to build the new plant.

Campbell President W. B. Murphy expressed satisfaction with his company's experiences in Nebraska and commended the co-operation received from everyone. He said, "It certainly seems that the operation we anticipate should be most advantageous to our company as well as to the economy of the state."

Price listed five reasons for Campbell's having been attracted to Nebraska: the ability and desire of Nebraska farmers to grow the type of raw crops the company needs for its various soups; suitability of Nebraska soil and favorable growing conditions for these crops; water supply, transportation facilities and quality of labor.

Gov. Anderson said, "we are trying to bring the right people into Nebraska and in Campbell we certainly have a leader in the food processing field. I am convinced that this is a big step forward for Nebraska and one which should prove most heartening to our people."

Lincolnite Heads Nebraska Postal Supervisor Group

A Lincoln man, Fred Lingenfelder, was re-elected secretary-treasurer of the Nebraska State Branch of the National Association of Postal Supervisors, at a recent state convention in Kearney.

Robert L. Harrison of Scottsbluff was re-elected president. Elected first and second vice presidents, respectively, were Fred E. Feagins of Alliance and Edwin R. Amen of Norfolk.

Named to the executive committee were James I. Chadwell of Omaha, Chris W. Hansen of Kearney, and Byron A. Rakestraw of Hastings.

The Association's auxiliary elected Mrs. Walter F. Salisbury of Lincoln president.

Other auxiliary officers elected were:

Mrs. Robert Harrison of Scottsbluff, first vice president.
Mrs. Byron Rakestraw of Hastings, second vice president.
Mrs. Arthur Wantlin of Norfolk, secretary-treasurer.
Mrs. Leslie Blackman of Omaha, chaplain.
Mrs. Hugo Wandel of Omaha, sergeant-at-arms.

Milford Gets Polished Up As Mayor Praises Mennonites

Lincoln Star Special

MILFORD, Neb. — The town that only a week ago was devastated by a tornado will be "polished up" by Thursday night or Friday, Mayor George Phipps of Milford said Wednesday.

The work of the Mennonites was highly praised by the mayor. He explained that Mennonites have a disaster aid system within their church.

"As Mayor of Milford I want to say that they are just about the finest group of people I have lived around," he said.

35% Mennonites

About 35 per cent of the Milford townspeople are Mennonites as are many farmers in the surrounding area. There is a Mennonite church in Milford, one in a rural area, and another near Beaver Crossing.

Mennonite ladies assisted the Salvation Army in serving food to 600 to 700 men Wednesday at the Grange Hall and many of the men were working on farms.

Mayor Phipps said he thought that in the near future Mennonite crews from Kansas and Iowa would help rebuild homes that were not insured.

More than 600 Boy Scouts from the Cornhusker Council and York showed up Tuesday to rake the area and three dump trucks and drivers were furnished by the Lincoln Air Force Base.

Capt. Walter Kennedy of the Salvation Army said workers of the Salvation Army would distribute mattresses, bedding, quilts and clothing at the Grange Hall until Saturday to residents of Milford.

The Salvation Army served sack lunches to the Boy Scouts at noon Wednesday.

Construction on two new homes has already been started and at least 10 more are expected to be begun next week.

The State Trade School at Milford will hold its annual open house Sunday on "Milford Appreciation Day" despite damage to buildings.

Man Fair With Freak Auto Mishap Injuries

Fred Helmers, 22, of 1640 G, was listed in fair condition at a local hospital after he was injured in a freak one-car accident Wednesday afternoon at 10th and K.

Police said Helmers was attempting a right turn onto 10th from K when the left front door swung open. In attempting to close it, police reported, Helmers lost control of his car and it struck a parked car. He reportedly suffered head injuries.

LODGE NEEDS DINING ROOM SEATING 40

WASHINGTON (AP)—Henry Cabot Lodge Jr., U.S. ambassador to the United Nations, asked today for authority to add a dining room seating 40 people to his official apartment in New York's Waldorf-Astoria Hotel.

Lodge told a Senate Appropriations subcommittee his present dining room seats only 18 and when he has official guests exceeding that number he has to set up another table in the living room.

His quarters even then will "not be as big as the residence of the delegate of the Soviet Union," Lodge said, but will be adequate for his purposes.

Lodge said he is now paying the Waldorf-Astoria $17,500 a year for his quarters. He is asking authority to use an additional $12,500 of already-appropriated funds.

The Third Try

In dauntless spirit the Nebraska Public Power System has opened a third successive effort to convince Congress that Nebraska should have its 230 kilovolt Grand Island—Fort Randall electric power line. Congress will be asked to act favorably on a $9 million appropriation.

On the face of the record Nebraska's chances do not look impressive. There will be opposition in South Dakota. There has been criticism of the Nebraska congressional delegation by powerful congressional figures. They describe Nebraska's position as one of opposing public power grants for other states but changing its tune when its own interests are involved. There is also a currently unfavorable climate in Washington for public power in general. But this much is certain. Retreat is defeat. Renewed effort is Nebraska's one great hope.

The NPPS is to be commended in its new try in preferring not to dwell on the controversial aspects. It is a good time to refrain from diversions which most probably would only cloud the issue. The state has a clear cut case on the constructive side. It has a summer market for basin power during a season when such a market is needed. It has a demonstrated irrigation demand. It has a provable economic requirement.

Sen. Byrd Speaks Out

Senator Byrd of Virginia is neither a money waster nor a foe of private enterprise. He believes in a balanced public budget and an America in which everyone stands on his own feet. He would be the last to strike a blow at private enterprise which is living in character.

It is more than usually convincing, therefore, to hear him denounce the Office of Defense Mobilization on the floor of the Senate. He described its decision to grant a tax write-off to the Idaho Power Company as an "utterly indefensible action." He was referring to Chapter Two in what the public has been led to believe has been a contest between private and public power for the opportunity to develop Hells Canyon. Aided by a sympathetic Eisenhower administration the Idaho Power Co. has succeeded in knocking out the public power concept of constructing a high multipurpose dam on the Snake River, having in mind reclamation, flood control and electric power production. Instead it has found favor for its construction of two low dams designed solely to provide itself with electrical energy for re-sale.

It is curious, indeed a commentary on the times, that throughout the several years of heated debate there has been no mention of the fact that Idaho Power not only wanted the dam sites, but it also planned on a public assist —a left handed subsidy in the form of tax write-offs running into millions.

The deal brings a reminder of Dixon-Yates—an example of special favor at public expense so lurid that the administration itself, once the facts reached the public, had to repudiate it.

Now it comes out on the floor of the Senate that the ODM proposes to give Idaho power a tax write-off on 65 per cent of the cost of one of its projected dams—Brownlee—and 60 per cent of the cost of its second dam—Oxbow.

Danger Of The Bomb Tests

It would have been in the nature of a 24-hour sensation if a distinguished, Nobel-prize-winning scientist should have said in the heat of a presidential campaign that 10,000 men, women and children are dead or dying of leukemia around the world because of the atomic or hydrogen bomb tests which have been carried out to date.

Dr. Linus Pauling of the faculty of the California Institute of Technology occupies a place in science that entitles the expression of any opinion by him to the highest respect. Because of his standing as a scientist and for other reasons the fates may be kinder to him than they were to Adlai Stevenson who undoubtedly tossed an undetermined yet considerable support out the window last fall when he called for discontinuance of the hydrogen bomb tests. The echoes of Stevenson's plea return even as Pauling urges that the nations get together to eliminate bomb tests.

"For both political and humanitarian reasons, I am strongly in favor of an international agreement between the United States, Russia and Great Britain to stop testing nuclear explosives now," Dr. Pauling said.

While indicating that damage caused by radioactive fallout tests to date is only about one per cent of that caused by cosmic rays bombarding the earth from outer space and recognizing that continuance of the tests will not change the nature of the human race, Pauling insisted that if bomb tests are carried on at the present rate, the number of children born in each generation with such serious defects as feeble-mindedness and deformities will be increased by one per cent—or by 200,000. And that, he indicated, would increase sharply as smaller nations acquire atomic weapons.

The point to all of this is that leadership cannot continue indefinitely to ignore the danger of tests of nuclear weapons. Some day, which we may hope is not too far distant, nations will sit down in common sense and decree that tests shall end.

Of Men And Things

By J. E. LAWRENCE

This editor late last week received a three-page letter from a well-known western Nebraska citizen urging that Nebraskans join hands in presenting the name of the late George W. Norris for the Senate's new Hall of Fame. It was one of a number of letters that have reached this desk recently, along with telephone calls bearing on the same subject. We are quite sure that the explanation offered by Sen. Kennedy of Massachusetts, chairman of a Selections Senate Committee, will in no way soften the sting of disappointment experienced by a considerable number of Nebraskans when the name of Sen. Norris was omitted from the list of five.

★

Sen. Kennedy said the five named to the Senate's new Hall of Fame were not necessarily the greatest of all time, that others might be considered greater by some, and that he himself had experienced the greatest difficulty in excluding from the list the names of Norris of Nebraska, Benton of Missouri and Oliver Ellsworth of Connecticut. Naturally there will be no common agreement on qualities of statesmanship revealed by members of the greatest parliamentary body in the world, with roots reaching back over more than a century and a half of exciting world history. It is not necessary to minimize Henry Clay, Daniel Webster, John C. Calhoun, "Fighting Bob" LaFollette, or the late Robert A. Taft in order to give recognition to the great contributions made by the Nebraskan. In his long congressional service he was unlike any of the five picked by the committee. The nearest approach to Norris in the expression of political independence and of solid, sound American liberalism was the senior LaFollette. They fought shoulder to shoulder in a number of the stern struggles which gave color and vitality to Senate deliberations when a weary nation itself wanted only relaxation and serenity.

Not Necessarily Greatest

★

In advance of the committee's announcement of its selections for its new Hall of Fame, Sen. Hruska revealed in a news letter to his constituency that he had proposed the name of the late Sen. Kenneth Wherry for the Hall of Fame. We do not know who got the backing of Carl Curtis, Nebraska's senior senator, but assume that he and Hruska may have joined in support of Wherry. It is too bad that the two Nebraskans now in the Senate could not forget partisanship long enough to back Norris. His inclusion in the list for the new Hall of Fame would have been a graceful, well-deserved gesture on their part in giving recognition to a great American, and would have reflected credit upon them as well as Norris.

★

Over the long pull the stature of George Norris will not in any way be affected by these selections for the Senate's new Hall of Fame. Those who followed Norris through the thick of battle and those bittering opposed to his philosophy will recognize that his place in history is secure. But the list in itself is revealing when it comes to the present mood of the national capital. The southern influence is strong. The conservative tinge is unmistakable. The great fight between private and public power is now shaping up in the gathering shadows of the Eisenhower administration. The private utilities have not forgiven Norris for his championship of TVA, for his public power program in Nebraska, and for his continuing interest in sound river basin development in every section of the country. Yet in the field of conservation of national resources George W. Norris will continue to rank with three others for an enduring leadership. He, Theodore Roosevelt, Gifford Pinchot, and F. D. R. will gain additional stature year by year as this country grows older.

Over The Long Pull

★

In the post-mortem discussion of the selections for the Senate's new Hall of Fame, it develops that Sen. Norris was preferred to Ohio's Robert A. Taft by historians, political scientists and scholars polled by Chairman Kennedy. Sen. Norris topped both Calhoun and Lafollette and was far ahead of Sen. Taft who was ninth in the list preferred by the historians. Nebraskans, temporarily disappointed by what they may look upon as unjust, may be assured that Norris's place in the history of the United States Senate is quite secure. He won it by rare qualities of courage and by dedication to enduring principles so vital to democratic government. Nothing will obscure that fact.

Hard Decision

The Polish delegation invited by President Eisenhower early in the year is still in Washington still hoping to negotiate a loan to make life a little better in Poland. It hasn't any money yet, but by mid-May it hopes to be successful in getting $30 million with which to buy American-made farm implements and another $75 million with which to buy up some of this nation's farm surplus.

The path has not been rose-strewn for the delegation. It represents the Communist Gomulka government and there is strong resistance in some quarters here against helping any Communist satellite on the grounds that it would only amount to a subsidy for Russia. Truly in any aid to Poland or other Red satellites there is the calculated risk that it would make them more comfortable and perhaps more content in their Communist servitude.

But there is another side to the penny. A closed door attitude gives the satellites no choice but to make the best of their captivity. The alternative of rebellion by force, such as Hungary attempted, went beyond the possibility of U.S. aid. The West derived no gain from the disillusioned Hungarians.

It is a long range conflict between the ideologies of the East and West and acts of kindness and understanding to a beleaguered people can live long in their hearts. We should think long and hard before we send the delegation home empty-handed.

Link Bridges With Stock Market Leak

WASHINGTON—Senate probe of the Northeast Airlines stock scandal has uncovered tracks pointing to Sen. Styles Bridges' (R-N.H.) office, yet the chief investigator now following those tracks is Bridges' political appointee.

He is able, amiable Don O'Donnell of Manchester, N.H., who was brought to Washington by the man he is now supposed to be investigating. He has already let one key figure in the investigation, whose testimony might embarrass Bridges, take off for South America on the eve of the Senate hearing.

O'Donnell's job is to find out who leaked word prematurely last August that the Civil Aeronautics Board had granted Northeast the profitable New York-Miami route. The morning after the secret CAB vote, insiders made a killing in Northeast stock.

Among those who rushed out to buy stock before it jumped from $9.15 to $12.50 a share were three of Bridges's aides — Chester Wiggin, Tom Shannon and Dick Eddy. They made modest purchases through the Paine, Webber, Jackson and Curtis brokerage firm.

Bigger windfalls went to two other Bridges henchmen, Lowell Mayberry of Boston and Milt Shapiro of Concord, N. H., who got a free ride on the stock market the same morning. Shapiro reportedly bought 500 shares early in the morning while the price was still rock bottom.

How Bridges' office got the advance tip hasn't been positively proved. It may be significant, however, that another Bridges man was present when the CAB reached its secret decision. He is the CAB's chief investigator, Jimmy Anton, who formerly worked for Bridges on Capitol Hill.

☆ ☆ ☆

SKIPS COUNTRY

Though Anton's testimony is considered important, O'Donnell gave him permission to take a two-week junket to South America while the hearings are going on. Anton was careful to get O'Donnell's okay before leaving the country.

Sources close to the investigation charge that O'Donnell is trying to swing the spotlight away from Bridges and focus on others who may also have had inside information. For example Larry Henderson represented a New England combine that was trying to buy millionaire Floyd Odlum's controlling interest in Northeast. The morning of the stock-market leak, Henderson made three long-distance calls to New England. One who was called, Forrester Clark of Boston, bought stock.

Robert Oliver, an attorney for Delta Airlines, also made several phone calls to Georgia. At least six Atlanta, Ga., speculators cashed in on Northeast stock, including Georgia's GOP boss, Robert Snodgrass.

O'Donnell denied to this column that he was trying to protect anyone. It will be interesting to see, however, how deeply he delves into Bridges' office.

DORIS FLEESON

Program A Test Of Eisenhower Fight

WASHINGTON — President Eisenhower is depicted by some of his associates here as returning from his Georgia vacation full of fight. He wants his program passed by Congress, they say, and he intends to cajole and charm it across and, if necessary, to put pressure on recalcitrant members of his party. If so, this represents not only a change of pace but a change in character for this administration, which since its inception has demonstrated little stomach for a fight.

Time and again it has been the practice of the Eisenhower administration to wait out its crises. A stiff battle last year would have succeeded in getting across a school construction program. Instead the administration made an effort so perfunctory that the bill was lost. Its chances of passage in the current Congress have now diminished due to the growing demand for economy.

Whether the President will or can do anything effective to push his mild civil-rights program is moot, since the legislatively experienced southern minority has seen to it that the bill has built-in roadblocks. The biggest fight, if the President truly wants one, will be over his budget and particularly over appropriations for foreign aid.

☆ ☆ ☆

It has not been enough in the past, and it will not be now, for the President to confine his efforts in behalf of his program to urgent statements at his press conferences. The course the President's supporters think that they have laid out for him, and to which they believe he has agreed, is a full-time job calling for detailed leadership foreign to Eisenhower's habits.

There is simply no one in the Eisenhower entourage who commands the respect on Capitol Hill and the ear of the public who can do the job for him. Vice President Nixon, who reiterated his modern Republicanism this week by endorsing the administration's record budget substantially in toto in a speech before the United States Chamber of Commerce, cannot do the job. He can get public attention, to be sure. Yet, any effort by him openly to lead the Congress would be bitterly resented by both parties.

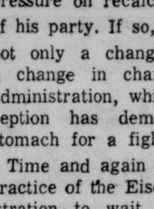

The fact that congressmen came back from their visits home during Easter recess more determined than ever to press for reductions in appropriations clearly shows that the administration has neglected the all-important public in its drive for the passage of its program.

☆ ☆ ☆

The President's fight, if he does make one, will in large part have to be for public understanding of the budget and of the need for a continuation of the foreign-aid program.

President Eisenhower has a special handicap in that the interests of his administration do not have compelling voices in either house of Congress. The Eisenhower Republicans on The Hill are generally either so junior as to lack weight or temperamentally disinclined to leadership. The fighters in Congress are largely on the other side. This is why the burden of the fray must be borne so heavily by Eisenhower himself.

BOB CONSIDINE

Summit Conference Bears Some Fruit

NEW YORK—The Soviet Union's proposal to give the U.S. aerial inspection rights over 2,780,000 square miles of Russian territory, if we'll open up 2,730,000 square miles of our own, is, although it may be faulted on closer inspection, the kind of concrete move the President groped for at the Geneva summit conference and never attained.

At Geneva, Eisenhower absolutely stunned Khrushchev, Bulganin, Molotov and Zhukov when without warning he offered to permit aerial inspection of all America in exchange for similar rights to the U.S.S.R. To boot, the President threw in an invitation to exchange military blueprints.

The striking offer came so swiftly and so without cue or hint that, according to a man who was in the room at the time, "it knocked the wind out of the Russians." The Red leaders were depicted as so confused that they asked time to reply, instead of instantly saying nyet. If outward appearances mean anything, the four of them looked like lost puppies, huddling together for protection, when they left the conference building that evening.

"I feel sorry for the poor . . . ," an old correspondent said. "They've got nobody to call home to, for instructions. Stalin didn't teach them to think for themselves."

☆ ☆ ☆

The swift and audacious move by the President also caught the clearest-headed seers among the correspondents flatfooted.

Now, nearly three years later, the Russians have responded. The administration doesn't think much of the response, and there would be little hope of getting Congress to approve it in its present stage. Under the Russian plan, generally, they'd let us peek at Siberia if they are given permission to photograph from the air all of the U.S. west of the Mississippi. That would take in, among other places, Los Alamos, the plutonium works at Pasco, along the Columbia River, Mare Island, San Diego, the plane plants of Boeing, Douglas, North American and Lockheed, and Marilyn Monroe.

Yet the offer struck responsive chords in Washington. One government official told this reporter, "That's the most encouraging sign we've had from Russia in three years. We should entertain the proposal at length before turning it down, and when we do reject it we ought to suggest an alternative within their reach or reason."

MARQUIS CHILDS

Policy Change Switches Power Fight

WASHINGTON — In the growing controversy over public versus private power the question of who is to get the power from the great federally-constructed Trinity River project in California promises to hold the center of the stage.

A Senate seat is up in California next year and the power issue is acute throughout the West. Secretary of Interior Fred Seaton has asked Congress to approve granting the right to sell the Trinity development's "falling water" to Pacific Gas and Electric, the far-flung West Coast utility.

One of California's two Republicans in the Senate, Senator Thomas H. Kuchel, entered a strong protest, citing figures to show that over 50 years the federal government, states, municipalities and cooperatives would pay $86,000,000 more for their power than they would if it were developed and sold under present federal law.

William F. Knowland, minority leader in the Senate, has told inquirers that he favors Seaton's proposal. Seaton argued that by turning the falling water over to the private utility, taxpayers would be saved the cost of large appropriations for federal power development.

☆ ☆ ☆

Certain senators, determined to bring about a public investigation into the controversy, have obtained a secret memorandum which they believe, shows how the change from federal to private development was dictated by former Under Secretary of Interior Ralph Tudor.

The memorandum, dated July 27, 1954, shows the Bureau of Reclamation officials at that time were in effect ordered — or so they believed — to reverse previous policy going back to Theodore Roosevelt under which the sale of power from federal projects goes to help pay for irrigation and flood control. Indications are that bureau officials drafted the memorandum and put it into the confidential file so their own position would be clear.

"We pointed out," the memorandum says of a meeting held in Tudor's office, "that the feasibility of the present plan depended upon the sale of energy, with the amount of energy being based upon integration with existing Central Valley (of which Trinity is a part) hydro plants and that the sale of falling water would eliminate the possibility of such integration.

☆ ☆ ☆

"The under secretary pointed out, however, that if a company such as the Pacific Gas and Electric were to contract for the fall water they could integrate the hydro production with their own steam plants and possibly have a larger net energy production than would result from integration with the hydro plants of Central Valley.

"It was also pointed out that we needed power revenue to assist in the return of irrigation cost. The conclusion was that this can be handled by having the rate for falling water include an element for that purpose."

When officials with long experience in the bureau asked Tudor if they could make a dual recommendation including the federal development of power in the event that the sale of falling water did not pay out for the project, he replied, according to the memorandum, that the recommendation should be only for the sale to the private utility.

☆ ☆ ☆

Tudor served as under secretary for about two years beginning in 1953. He left Washington to return to his firm, the Tudor Engineering Company in San Francisco, with large contracts on the West Coast for road and bridge construction. Tudor is generally credited with being the architect of the administration's partnership power policy.

The cost of the Trinity project is $216,000,000, of which $60,000,000 originally was to be for power facilities. Pacific Gas and Electric has argued its ability to build the power installations and thereby save federal appropriations. It would be the only private utility on a major federal reclamation project.

Congress is unlikely, according to present indications, to approve Seaton's request to let PG and E sell the falling water. Senator Kuchel is reported to be under great pressure to reverse his public stand. But in view of the strong position he took in a statement on the floor of the Senate, this would be difficult.

"The Central Valley Project," Kuchel said, "was not constructed for profit. It was built to satisfy an urgent need among our people for reclamation assistance. Its benefits should be distributed on as wide a range as possible."

☆ ☆ ☆

Kuchel pointed out that former Governor Earl Warren, now chief justice, and Governor Goodwin J. Knight both had recommended the Trinity development as a multi-purpose project including federal power development. But with the present economy drive, those who want to cut out the power appropriations may, after all, prevail.

Terry Overlooked

North Loup, Neb.

To the editor of The Lincoln Star: Who was it in Lincoln who told the Life Magazine reporter not to mention Terry Carpenter of "Joe Smith" fame in its write-up about the Nebraska Unicameral?

Terry is one of the few able men in the state Legislature. From a newspaper carrier, he has become recognized as a man of rare business ability. While he sold some of his business for a million dollars, he still keeps in touch with the common people.

While this calculated oversight won't hurt Terry Carpenter, it is an insult to Nebraska.

CLEM N. MEYRES

Seeking A Fair Way

Lincoln, Neb.

To the editor of The Lincoln Star: Mr. G. A. Spidel, a personal friend and an upright citizen of Nebraska, reiterated in his letter that there was some confusion to statements made by me concerning the State Grange's opposing the ton-mile tax and then in turn supporting the sales-income tax. Mr. Spidel stated this group did that to equalize the present tax burden by broadening the tax base. This won't bring about confusion?

There are two ways of raising additional tax money which would be fair to everyone, and the people of this state will eventually realize that they are fair.

(1) A state income tax. People would pay according to their income. The more money one makes, the more his share of the tax would be. The fair way. The sales tax works hardships upon the people with fixed incomes, such as those living on pensions, social security and other retirement plans. They would not pay income tax on these payments.

(2) The ton-mile tax. As originally proposed, this would assess all trucks capable of hauling 10 tons or more so much per mile to help maintain the highways they damage. Trucks licensed in this state were to be given about 20,000 free miles before being taxed at all. Farm trucks were not subject to this tax.

Variety Of Diets For Teen-Agers

Dieting is a very large thing about life among teen-agers, and the largest part of dieting is the amount of food they consume. This is a purely personal judgment based on strictly limited research around our house, where dieting teen-agers come and go with routine regularity. I cannot recall offhand a single one of our daughter's friends who has come to call and remained to giggle who has not been on a diet at one time or another.

What I like about teenage diets is the wonderful logic of them.

Calories, vitamins, carbohydrates and all the rest of the villainous crew are marshalled row upon row in strict discipline at the dinner table and then, having supposedly done their work, are relegated to the inactive files when the cheese sticks or potato chips come out for a favorite television show.

☆ ☆ ☆

Barbara is a sylph-like young lady of 16 whose only excuse for going on a diet must be to call general attention to how little she needs to diet. Yet Barbara is in an almost perpetual state of self-denial when she comes to visit Merrilee, our daughter. Invited to dinner for the very good reason that she happens to be around at dinner time, Barbara looks with a dour eye on the hot rolls, which she says are definitely forbidden by her schedule. **The dour look is accompanied by a twitching of the nose, which muscular activity soon changes the glint in the eyes to one of happy anticipation. At this juncture you can always depend upon Barbara to say, "Oh, well—just this once," and reach for a hot roll.**

Even more common than the "Oh well" school of dieting is the "I've done my duty" approach. This makes a closer approach to true dieting than the "Oh well" method, in that it requires strict obedience to the calories chart during at least one formal meal. True practitioners of the "I've done my duty" method extend it to all three meals, however, since anything else makes it a compromise with the "Oh well" system.

☆ ☆ ☆

Rosemary is one who abides by the duty system with almost puritanical self-denial. The way in which she can pass up the hot rolls or say no to fried foods is an inspiration to will power.

Rosemary never lingers long over the meal table, however. Along toward the end of the dinner she becomes restless, and at the first sign of permission she is up and away. At our house, her first stop after leaving the table is at the compote on the dining room sideboard. This compote usually is filled with mints, caramels or hard candies of some kind. After a visit by Rosemary, it always needs refilling. The only time its contents are reasonably safe from prolonged raiding is when there is a box of chocolates in the house.

Rosemary can consume half a box of chocolates during 15 minutes of polite conversation in the living room. If you jokingly remind her of dieting, she points out with complete logic that she obeyed all of the rules of her diet at every meal that week, and a girl needs some leeway between meals.

POSTCARD

We are becoming a Nation of birds of passage. Mr. Martin Flavin, the playwright and author, phones me this bright morning on his way to Ireland. The brogue was on his lips and butter wouldn't melt in the mouth of him.

It is the season of the year when the Irish of America yearn to visit the Irish of Ireland. The American Irish number 25 million to the Irish four million.

When they begin the migration, och wurra the day, there's scarce a room to be had in Dublin.

☆ ☆ ☆

"An Irishman is just a person who has lived in a certain climate for a certain period of time. To look on the Irish as a people with definite racial characteristics is nonsense."

I quote Professor Cecil P. Martin, chair of anthropology, McGill University of Montreal. And the shame of it, him from green County Wicklow.

It seems a cold, scientific shattering of a myth. Giving the lie to the tradition of banshees and leprechauns. And what did we fight for at the Battle of the Boyne, dear hearts?

Ah well, as me grandmother O'Dooleyplane oft remarked, wiping the froth of Guinness from her dear lips:

"May I meet him with one tooth and it aching, and one eye to be seeing seven and 70 divils in the twists of the road, and one old timber leg on him to limp into the scalding grave.

"And red war to the cruel Sassenach," added me grandmother O'Dooleyplane. "Cromwell's curse on him that speaks against the Irish."

A literary type, Grandmother O'Dooleyplane.

"It's the whiskey talking," we often said. "But doesn't it talk well, though?"

Professor Martin searched all over Ireland. He could not find a real Irishman. Irish, it seems, like Irish whiskey, comes 80 proof.

I think the professor should have looked in America. At American Irish like Mr. Flavin. There is nothing purifies the Irish in the American Irish like the prospect of a trip to Ireland.

Mr. Flavin said he would attend the drama festival in Ireland and visit the dear sights of the old sod.

"Hold the rents," I murmured. "For Michael Gavitt and the boys fighting for you in the hills.

"Let us lift a glass to harps and pepper pots. And the glowing ruins of peat fires in the bona fides. Let us speak this day of the brave captains O'Neill and Sarsfield and the Flight of the Wild Geese from the shame of the broken treaty.

"In a word: Bon voyage."

Mr. Flavin then took off on BOAC. A Sassenach aircraft, Heaven forbid. But it was a direct flight.

☆ ☆ ☆

The Duke of Wellington was once the target of a sneering political opponent. The Duke, he said, was Irish. Born in Ireland.

"Being born in a stable does not make one a horse," replied the Iron Duke.

It was a rather unkind way to say it. But as Professor Martin found in his research, it is literally true. The Duke was anthropologically logical.

It is only after you move out of the stable that you WANT to be a horse. That you begin to speak in a horsy way.

It is too late then to lock the barn door.

Erickson Student Heads NU Corn Cobs

Gordon Warner of Erickson has been named president of Corn Cobs, men's pep organization at the University of Nebraska.

Other officers for the coming school year are William Spilker of Minden, junior in the College of Agriculture, vice president; Elliott Lentz of Deshler, junior in the College of Engineering and Architecture, secretary, and Roger Wichman of Pender, junior in the College of Engineering and Architecture, treasurer.

Warner, junior in the college of Engineering and Architecture, is a member of the Engineering Executive Board, University Builders, Student Council, and is president of Delta Upsilon Fraternity.

Activities

Spilker is a member of Student Council, Student Union Board of Managers, Agriculture Executive Board, is vice president of University Builders and vice president of Farm House Fraternity.

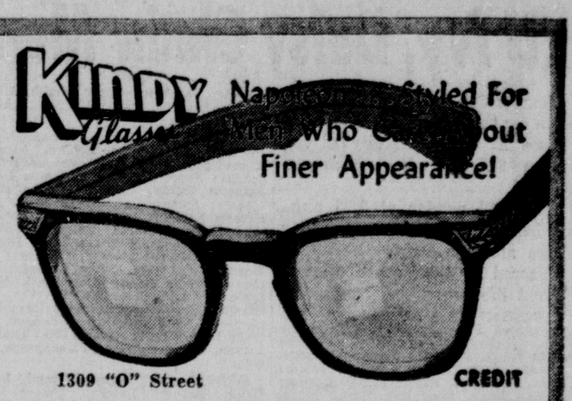

Lentz is active in the University Band, was chairman of the card section for the group this year, and is first vice president of Beta Sigma Psi Fraternity.

Wichman is a member of the American Society of Mechanical Engineers, article editor of the Blueprint, and is president of Theta Xi Fraternity.

15 Initiated

Fifteen sophomores, who were workers in the organization this year, were initiated as active members. Don Schick of Curtis, sophomore in the College of Agriculture, was named the outstanding worker.

The new initiates include Don Schick, Curtis; Burton Weichenthal, Stanton; Dean Ruwe, Hooper; Gary Berke, Elwod; Stanley Widman, Omaha; Jerry Gillespie, Gothenburg; Larry Fricke, Bayard; Larry Schrag, Norht Platte; Jon Bicha, Bellevue; Larry Lutz, Crete; William McQuistian, Pender; Charles Grothe, Geneva; Dent Walton, Lincoln; Jim Whitaker, North Platte, and Jerry Prahl, Rock Rapids, Ia.

10-Year Sentence Given Jurgenson In Wife's Death

OMAHA (AP)—Robert W. Jurgenson, 30, Omaha, was sentenced to 10 years in prison on a manslaughter charge involving the shooting of his wife last April 14.

Jurgenson first told police he accidentally shot his wife while practicing a "quick draw and twirl" of his revolver.

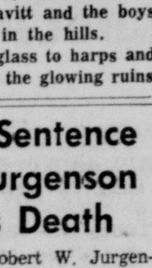

Later he said he shot her accidentally while attempting to "scare her" during an argument.

Jurgenson pleaded guilty to the manslaughter charge a week ago. He tried to change the plea to innocent. But District Judge James T. English would not accept the request and sentenced Jurgenson to the maximum term under Nebraska's manslaughter law.

VEHICLE REGISTRATION OPINIONS GIVEN

An attorney general's opinion handed down Wednesday held that a person who "inadvertently or purposely" registers his motor vehicle in the wrong county is not entitled to a refund when he later registers in the proper county.

However, the opinion further held, a taxpayer registering his vehicle in a county is not required to re-register if he should move out of that county during the same year.

The opinion answered questions raised by Lancaster County Attorney Elmer Scheele.

Asst. Atty. Gen. H. G. Hamilton, author of the opinion, stated that a 1953 law, passed by the Legislature as a result of a constitutional amendment providing for a new method of motor vehicle taxation, deals only with refund provisions when a tax has been paid on a vehicle whose ownership is subsequently transferred.

"In the absence of a statute," Hamilton said, "a party who has paid a tax voluntarily may not recover the tax paid. He added that payment in the wrong county "is not an involuntary payment even though made under a mistake of law or a misapprehension as to the taxpayers' legal rights.

Committee OKs Federal Basin Agencies' Budgets

By BILL DOBLER
Star Staff Writer

A $280,404,200 budget for fiscal 1959 for the seven federal agencies represented on the Missouri River Basin Inter-Agency Committee has been approved by the Committee.

The funds would finance water and other resources developments for the fiscal year from July 1, 1958 to June 30, 1959. The funds will be part of Pres. Eisenhower's budget next January.

The budget for the agencies in fiscal 1958 is $188,300,000.

Bulk To Engineers

The bulk of the money for fiscal 1959, $128,350,000, would go to the Army Corps of Engineers for mainstream projects and local flood control projects. This would be more than double the budget for the Corps now being considered by Congress.

Another 140,400,000 is being requested by the Interior Department's Bureau of Reclamation, a 50 per cent increase in the 1958 fiscal year budget request.

The needs of other agencies, changed little from 1958 requests, are $3,094,200 for Agriculture, $7,855,000 for Public Health Service, $550,000 for Commerce, $70,000 for the Federal Power Commission and $70,000 for Labor.

New starts by the Corps and the Bureau of Reclamation were reported as the cause for increased budgets.

Ainsworth, Farwell

Included in the Bureau work are planned extensions in 1958 of projects at Ainsworth and Farwell, Neb.

Representatives of all the above agencies attended the 94th meeting in Lincoln of the Committee. Hosting the group are Governors Victor Anderson of Nebraska and Joe Foss of South Dakota.

Also attending was Gov. John Davis of North Dakota and representatives of the governors of the other seven Basin states.

The group will take a field trip Thursday which will include a tour of the laboratory of the Smithsonian Institution and an inspection of the Department of Agriculture and Corps of Engineers facilities in the Salt-Wahoo watershed.

★ ★ ★ ★ ★ ★

Make Use Of Reclamation Program, Official Tells State

Governors or their representatives attending the Missouri Basin Inter-agency Committee meeting were urged by Rex R. Reed, loan engineer for the Bureau of Reclamation, to take advantage of the Reclamation program permitting small projects in flood control, land management, irrigation and other improvements.

Reed explained that the Small Reclamation Projects Act of 1956 provides for loans and grants to be made by the federal government for the development or rehabilitation and betterment of irrigation projects which may also include flood control, fish and wildlife propagation and protection, municipal and industrial water supply and commercial power.

He emphasized, however, that the primary purpose must be irrigation.

Current Rate 3%

The current rate on loans for such projects, he said, is 3 per cent. The repayment period is 50 years.

The cost of flood control and fish and wildlife provisions, he said, is borne entirely by the federal government in the form of a grant.

A small project is defined under the law as one in which the estimated cost does not exceed $5 million. As a minimum, the local sponsoring group must contribute all required land and water rights up to a maximum of 25 per cent and must pay all costs incurred in obtaining the loan. Any public entity, including a state, which has the power or authority to contract with the federal government may apply for loans and grants.

Explains Steps

Reed explained the steps to be taken in securing loans and grants and urged states to participate even to the extent of being sponsoring agents for small projects.

In this program, Reed said, the local organization or irrigation district can construct necessary facilities where it wants them, in the way it wants them, and when it wants them.

Reporting on current small reclamation projects applications, Reed showed no applications from Nebraska and none from any of the other basin states except Wyoming which has two applications under preparation.

GLEN J. HOPKINS

Glen Hopkins Heads Basin Committee

Glen J. Hopkins of Kansas City will be the new chairman of the Missouri Basin Inter-Agency Committee.

Hopkins, a representative of the U.S. Department of Health, Education and Welfare, will take over the chairmanship at the Worland, Wyo., meeting July 9-10, it was announced in Lincoln Wednesday at the Committee's 94th meeting.

He will succeed Harrel Mosbaugh of Billings, Mont., who represents the U.S. Department of Interior.

It was also announced that Col. Thomas J. Hayes III, Omaha district engineer, will be relieved of his duties about August 1 to go to an advance training school. His successor will be Col. Dave Hammond, who is now attending the Army War College.

Hopkins, a native of Missouri, has been representing the U.S. Public Health Service on the basin co-ordinating committee since 1950.

His elevation marks the second time since 1944 that any federal agency representative other than the "big three" has headed the MBIAC, which co-ordinates the 10-state Missouri Resources Development Program.

Traditionally, the chairmanship has gone to a representative of the Army's Corps of Engineers, the Department of Interior or the Department of Agriculture.

John Swomley To Speak At Church

John Swomley, national secretary of the Fellowship of Reconciliation, Washington, D. C., will speak on "The Significance of Events in Hungary and the Mideast" at 8 p.m. Thursday at Grace Methodist Church, 27th and R.

Swomley

Local members of the Fellowship, who are sponsoring his appearance here, announced that all interested persons may attend.

The Rev. Mr. Swomley has written a number of studies on militarism in American life and is director of the National Council Against Conscription.

An ordained Methodist minister, he is a graduate of Dickinson College and the Boston University School of Theology and also studied at Columbia University.

TODAY'S CALENDAR

Thursday

Mississippi Valley Historical Society, Cornhusker Hotel, all day; banquet, 7 p.m.
Legislature meets, general sessions, 9 a.m. and 2 p.m.
Lincoln Lions, Cornhusker Hotel, noon.

Sertoma, Chamber of Commerce, noon.
Jane Jefferson Democrats, YWCA, noon.
State District track meets, University of Nebraska, all day.
Lectures by Dr. C. A. Arnold, professor of botany at University of Michigan, Bessey Hall Auditorium, 4 p.m. and 7:30 p.m.

Judge Delehant Retires But To Continue Service

Federal District Court Judge John W. Delehant whose retirement was effective at midnight April 30, will continue his work here until a successor is named.

Judge Delehant said he is now serving as a retired judge recalled to active duty. His successor is expected to be named shortly.

Leading prospect for the post is reported to be Lincoln Attorney Robert Van Pelt.

HOW PLYMOUTH'S BIG ECONOMY WIN AFFECTS YOU!

If you're an average driver, you wouldn't have had a chance in this year's Mobilgas Economy Run. It takes seasoned professionals to win in this kind of competition.

Every car of every make entered in the 1957 Mobilgas Economy Run was a new 1957 stock model. Every car was carefully tuned for the Run and the cars were piloted by real experts in this exacting kind of driving. Naturally, the mileage they got is higher than the figure you can expect.

The way this race—and all previous Mobilgas Economy Runs—was judged is another area that should interest you:

Cars of different weights and engine displacements cannot compete on an equal basis. Such a competition would produce misleading miles-per-gallon figures. If miles-per-gallon were the only consideration, a motor bike could run away with first place. Obviously, other factors must be considered.

In order to give all cars a fair chance, the engineers used ton-miles-per-gallon as their yardstick—and as a basis for the official Mobilgas Economy Run prizes. This establishes a definite relationship between gasoline consumed, distance traveled, and weight carried. It is the *only* measure of gasoline economy that has any real significance to the engineers—or to you as an average motorist.

Now look at the results of the Run with the above thoughts in mind: *Plymouth swept its field*—First Place winner in "Class A," the division that included all the well-known low-price cars. As certified by the United States Automobile Club, Plymouth's official ton-miles-per-gallon led the entire "Class A" field.

Bear in mind, too, that Plymouth's winning mark was set using a V-8 engine with TorqueFlite automatic transmission. Several of the losing cars in Plymouth's division used 6-cylinder engines—supposedly more economical. But Plymouth beat every car in sight, 6's and V-8's alike.

But here's what Plymouth's victory *does* mean to you: The Plymouth you buy at your Plymouth dealer's is the same, engine for engine, part for part, as the Plymouth that won the Mobilgas Economy Run.

The superior engineering that enabled Plymouth to run away with first place is built into *every* Plymouth. And that means you can expect economy that will save you real money in ordinary driving.

So before you invest a dime in any automobile, it's to your advantage to compare all three low-price cars. Compare them for economy . . . for beauty . . . for riding and handling ease . . . for performance. *Then* make your decision.

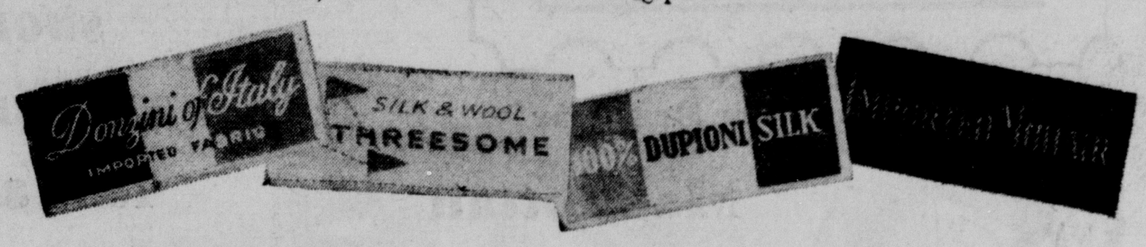

Only Plymouth dares to make so bold a challenge, because only Plymouth, of the low-price 3, has so many three-years-ahead features, yet leads its field in day-in, day-out economy.

Prove it to yourself. Your Plymouth dealer will be glad to give you a guest drive at *your* convenience.

The most beautiful—and most economical—car in its class: Plymouth

Walker-Adams guarantees "1/3" off on FAMOUS-LABEL Summer Suits

Reds Put Sex Appeal Into Their May Day March

PRETTY GIRLS JOIN PARADE

MOSCOW (AP) — The Russians put sex appeal into their May Day parade Wednesday. Pretty young girls in red bathing suits, rather than any radically new weapons, proved the surprise in the traditional march through Red Square.

The bathing beauties shared attention with military power and a civilian demonstration featuring the Communist peace theme.

The girls, borne on the centerpiece float of a section of the parade devoted to young farm workers, bent forward and backward alternately to give the impression of moving flower petals.

Peace Slogans

Other girls, standing atop motorized platforms, held aloft peace slogan banners. Some pretty college girls and youths played mock games of volleyball and soccer in the midst of the parade, handling ball-making shots while keeping up with the marchers.

The military show featured a fleet of 25 light, self-propelled guns designed to be transported by air and used by airborne troops. Overhead flew 178 of the latest Soviet planes, including 10 giants four-jet Bison bombers.

The civilian demonstration as usual was described as spontaneous. But in reality it was as carefully rehearsed as a Broadway show. School children marched by the reviewing stand atop the Lenin-Stalin mausoleum with the precision of soldiers.

Regimented Crowd

Many-colored flags, balloons and Maypoles were borne by the regimented crowd that filled a Budapest square to hear Hungarian Premier Janos Kadar attack "imperialists" and "counter-revolutionaries."

Only one riot marked the day.

Naples police battled a crowd of 20,000 for an hour when Communists started an anti-American demonstration and began throwing bottles and stones.

Communist East Germany showed off Soviet-made artillery, amphibious troop-carriers and other equipment in East Berlin and other provincial cities.

Peiping in Red China and Pyongyang in North Korea were the scenes of mass Communist demonstrations.

Another City Fireman Resigns–Blames Low Pay And Police-Fire Integration

Another Lincoln fireman has resigned, giving low pay on the Fire Department and the police-fire integration plan as his reasons.

Gene F. Hudkins, 30, formerly of 2212 So. 9th, has moved his family to Pompano Beach, Fla., and taken a position as an airplane engine mechanic with an airline, according to members of his family here.

He reportedly informed city officials of his resignation by mail, after he had finished his vacation. Hudkins had been a member of the Fire Department since April, 1954.

Several other department members have also quit in the past few months, citing low pay and the "buddy" system as their reasons.

Fire Chief Paul Feaster said he did not believe Hudkin's resignation was due to dissatisfaction with the integration system, since he had worked "only about four hours of cruiser duty."

However, firemen at Hudkins' station — station 7 — were of the opinion that he had worked about 22 hours of cruiser patrol duty between March 3 and April 15.

'Ridiculous' To Plan Roads But Not Financing—Ress

State Engineer L. N. Ress said Wednesday he could think of "nothing more ridiculous than trying to work out a long-range planning, engineering, and construction (highway) program without an accompanying long-range financing program."

Ress said his department is asked every day to "draw up a four-year program, or a 10-year, even a 20-year program; taxpayers want to know when they can expect their roads to be improved; I want to know the same things."

The state engineer explained that under present statutory provisions Nebraska's six-cent gas tax is scheduled to expire May 9, 1959.

Can't Plan Farther

No planning can be done, he said, for a highway program beyond that date based on the availability of current revenues.

Ress said a continuing highway program requires planning at least one year, and preferably two years, in advance of actual construction.

Defending the position of his department, Ress declared, "a short-range revenue program does not permit such planning."

13-Year U.S. Program

Under the provisions of the 1956 Federal-aid Highway Act, the highway chief said, the federal government is committed to a 13-year program. The allocations have been tentatively set and the highway-user taxes levied to finance the federal share of the program.

"Nebraska is now faced with an important decision," Ress continued. "Do we embark on a long range program by providing additional revenue to take full advantage of the federal funds as they become available, or do we continue the short-range revenue program?"

Ress said that choosing the latter may result in a "backlog of federal funds which could not be converted into highway service in the time specified, and thereby lost to the State of Nebraska."

Walter S. Jordan Rites Saturday

Funeral service for Walter Scott Jordan, 85, of Lincoln, will be held at 1:30 p.m. Saturday at Wadlows. Burial will be in the Alvo Cemetery.

Mr. Jordan, who died Wednesday at the home of his daughter in Winner, S. D., was born at Alvo and farmed there until coming to Lincoln in 1924.

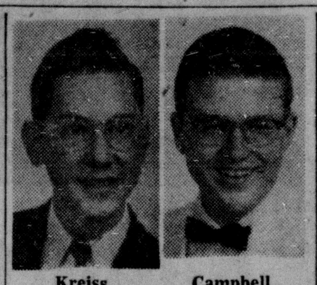

Surviving are a son, Rex L. of Lincoln; daughters, Mrs. John Fritchie of Meridian, Ida., Mrs. Leo Campf and Mrs. Claude Carroll, both of Portland, Ore., Mrs. Andy Miller of Shamrock, Mo., and Mrs. Homer Smith of Winner, S.D.; sisters, Miss Emma Jordan of Alvo, Mrs. Alma Stone of Los Angeles, Calif., Mrs. Mollie Vickers of Alvo; 11 grandchildren and a number of great-grandchildren.

Mathew Binder, 67, Rites On Thursday

Graveside services for Mathew Binder, 67, of Lincoln, will be held 11 a.m. Thursday at Calvary, with Father John Kelly officiating.

Mr. Binder died Tuesday.

Surviving are a sister, Mrs. Joe Dickes of South Sioux City and several nieces and nephews.

Kreiss Campbell

8 Nebraskans Win Merit Scholarships

Two Lincoln boys and six other Nebraska high school seniors are among 830 winners in the largest private scholarship program in the history of the United States.

Paul H. Kreiss, a Lincoln High School senior, and Donald M. Campbell, senior at Southeast, are included in the winners announced Wednesday.

The program represents a total investment of more than $4 million by the National Merit Scholarship Corp. and 56 business and industrial corporations, foundations, professional associations and other groups.

To Attend NU

Campbell plans to study civil engineering at the University of Nebraska and Kreiss will use his scholarship at Swarthmore College in Pennsylvania, where he plans to major in biology.

One other Nebraska winner plans to attend the University in Lincoln. She is Sonia R. Anderson of Omaha, who is interested in studying geology.

John A. Rakowski of Omaha, another scholarship recipient, plans to attend Creighton University.

Other Nebraska winners, all of whom have chosen colleges outside the state, are William R. Bauer of McCook, Diane K. Halstead of Schuyler and Justine M. Petersen and Martin L. Greene, both of Omaha.

$100 To $2,000

The amount of the awards, sufficient to see each recipient through four years of college, ranges from an honorary award of $100 a year to a stipend of more than $2,000 a year.

Winners from among the 162,000 students who entered the competition were chosen on the basis of college aptitude tests and personal achievement.

Campbell is president of his class and of the Southeast High School National Honor Society and a member of the Student Council and publication staff.

He is the son of Mrs. Doris Campbell, 3401 So. 30th, and John M. Campbell, 2457 So. 27th.

Kreiss, the son of Mr. and Mrs. Robert F. Kreiss, 2103 Ryons, is a member of the Honor Society, Science Club and YMCA.

NU Student Court Plan Vote Asked

The University of Nebraska Student Council voted unanimously Wednesday to place the question of a proposed student tribunal before the students in the all-University spring elections Monday.

The proposed tribunal calls for nine judges, two of which would be faculty members, to hear all cases of student discipline referred to it by the Division of Student Affairs or agencies of the Faculty Senate.

Marvin Breslow of Lincoln said the proposed student court, under consideration by the Council for nearly a year and a half, would have to prove itself by "good acts and mature judgment."

He said the proposal, if approved by the student body, would probably be put into effect by next year's Council.

20 Homes Burned In N.Y. Blaze

PATCHOGUE, N.Y. (INS) — A wind-whipped forest and brush fire swept through a 60-square-mile area of eastern Long Island Wednesday burning 20 homes to the ground and forcing hundreds to flee.

Some 1,000 firemen, police and home-owners waged a day-long battle against the blaze before they brought it finally under control at dusk.

Scores were treated by doctors for burns, smoke poisoning, cuts and abrasions, but none had to be hospitalized.

The fire, concentrated mainly in the Holbrook area of sparsely-settled Suffolk County, covered a zone 12 miles deep and five miles wide, and moved to the outskirts of the large village of Patchogue.

State police called the blaze the most destructive to homes in the history of Long Island. Long after the blaze was under control, 1,000 volunteers from 20 fire companies, assisted by 50 pieces of apparatus, continued to beat out flaming pockets of trees, while domestic and game animals fled in panic.

The fire-fighters—hampered by shortage of water—were forced to build backfires, burning off land so the forest fire would have nothing to feed on.

SEN. M'CARTHY STILL SERIOUS

WASHINGTON (INS) — Bethesda Naval Hospital reported Wednesday that Sen. Joseph R. McCarthy (R. Wis.), ill with acute hepatitis, spent a comfortable day but his condition remains "serious."

"Sen. Joseph McCarthy had a fairly comfortable day. Temperature has returned to normal from the slight elevation this morning. However, condition remains essentially the same. Condition is still considered serious," the report said.

The senator was hospitalized Sunday with the severe liver ailment.

Kansan Pleads Innocent To No-Account Check

Tony DeMarco, 41, of Marysville, Kan., pleaded innocent in Lancaster District Court to a charge of issuing a $100 no-account check last March 25 in Lincoln.

DeMarco's trial was set for the next jury panel and a $3,500 appearance bond was posted.

'No Milk'

OLDHAM, England (AP) — Mrs. Evelyn Schofield opened a bottle of milk and out fell a soggy note written in red ink saying:

"No milk today."

Mrs. Schofield complained to the health authorities. The dairy was fined 2 pounds ($5.60) for failing to wash its bottles properly.

French To Take Part

PARIS (AP) — Six French ships will take part in the international naval exercise at Hampton Roads, Va., June 8-17. They are the 8,000-ton cruiser De Grasse, the aircraft carrier Bois Belleau, and the escort vessels Dupetit Thouars, Chevalier Paul, Gascon and Lorrain.

Dulles Says Ban On China Travel For Newsmen Does Not Abridge Press Freedom

NEW YORK (AP) — Secretary of State John Foster Dulles said Wednesday the State Department ban on visits to Red China by American newsmen does not abridge the freedom of the press because it relates only to the gathering, not the publication, of news.

Dulles' comment was made public by Arthur Hays Sulzberger, publisher of the New York Times. Sulzberger wrote Dulles on April 23 expressing his feeling that "the administration is abridging the freedom of the press and using the press as an instrument in its diplomacy."

In his letter of reply, Dulles said:

U.S. foreign policy "inevitably involves the acceptance of certain restraints by the American people. If it were not so, foreign policy would be impotent."

The "newsgathering fraternity" not the State Department, must distinguish between responsible newsgatherers and adventurers more interested in visiting China than reporting what is going on there.

Second point referred to Dulles' comment of April 23 that perhaps some formula could be found for a passport policy permitting responsible newsgathering in China. Dulles then stressed, however, that the number of correspondents in China should be limited and that those who are there should make their dispatches available to all newspapers.

Many Areas

Dulles said "the constitutional 'freedom of the press' relates to publication, and not to the gathering of news. There are, of course, many occasions and many areas where, for security or policy reasons, newspaper correspondents are excluded."

Speaking of the issue of the press as an instrument of foreign policy, Dulles said:

"When young men are drafted and sent abroad, they are used as instruments of foreign policy. When business people are not allowed to trade with Communist China, they might equally argue that they are being used as instruments of our diplomacy. Foreign policy and diplomacy cannot succeed unless, in fact, it channels the activities of our people, and in this respect newspapermen have also their loyalty and patriotic duty."

'Pooling'

Discussing his suggestion about allowing a limited number of correspondents in China, Dulles commented:

"I have discussed this problem informally with a number of leaders in the newspaper field. One of them made the suggestion that the newsgathering fraternity might agree to some 'pooling' arrangement as has sometimes been the case in the past. I felt that, if so, we might be able to accept that without the unacceptable consequences to which I allude. . .I am inclined to think that he and others who have examined this proposal now feel that it would be impractical to agree to bring about an acceptable limitation.

"But what concerns me is that the reasoning which leads responsible members of the newsgathering fraternity to conclude that they cannot draw lines as between themselves points up the difficulty of the department's drawing lines as between 'responsible' newsgatherers and what you call 'frivolous journalistic adventurers.'

"Also I see no valid distinction between newsgatherers and those members of other professions who claim a constitutional right to travel, once travel for a profession as a whole is allowed."

West Lincolnites Aid Milford

Five residents of West Lincoln conducted a house to house canvas and collected three loads of clothing, food, bedding, dishes and 23 cases of canned goods for residents of tornado-stricken Milford. A $50 check was donated by the West Lincoln Businessmen's Association and an addition $55 collected was used to purchase food. Shown leaving for Milford are (left to right) Mrs. Jo Wilken, Merle Wilken, Edna Weiler, Melvin Muehlhousen and Ruth Hawkins. **(Star Photo)**

Man Admits Slaying Girl And Woman

GARY, Ind. (AP)—Police said Wednesday a young steelworker has confessed he killed a 29-year-old beautician and a 16-year-old girl and buried them at opposite ends of an airport runway at nearby New Chicago.

Chief Deputy Sheriff Sandor Singer said George R. Brown, 25, admitted Wednesday he placed 16-year-old Lana Brock of New Chicago in the shallow sand grave where she was found last Oct. 2.

Singer said Brown Tuesday admitted strangling Mrs. Mildred Grigonis of East Gary, a beautician whose body also was recovered from a shallow grave.

Chicago authorities Wednesday asked that Brown be questioned about the deaths of the Grimes sisters, Patty, 13, and Barbara, 15, whose nude bodies were found Jan. 22 northwest of Chicago. They disappeared the night of Dec. 28 after attending a movie.

Bruised

The Brock girl disappeared Sept. 24 while walking from her home to pay a utility bill.

Her body was found near the airport. There were bruises on her throat and legs, and the right side of her face was lacerated.

Sand in her lungs indicated she had been buried alive.

Mrs. Grigonis, the mother of a nine-year-old son, disappeared the night of Aug. 17. Her body was located Tuesday after Brown led police to her grave.

Writer Sues

HOLLYWOOD (INS) — A television writer filed a $200,000 damage suit against the National Broadcasting Company, charging that it copied a show titled "Festival of Music" after one he suggested.

Writer Maurice Revnes alleged that in 1954 he discussed with NBC a show titled "A Cavalcade Of Music."

Roselyn Burd, Fairbury, Wins Temperance Essay Contest

Roselyn Burd of Fairbury has been announced as the state prize winner in the annual essay contest for high school students sponsored by the Temperance League of Nebraska, Inc. The subject was "Effect of Alcohol on Human Behavior."

She will receive a $100 Savings Bond.

Receiving $50 Savings Bonds as district winners will be Sharon R. Stevens of Polk, Dale Keith Morse of Gothenburg and Robert Stewart of Hemingford.

Awards of merit will go to Brendalee Sawyer of Humphrey, Helen Maule of Columbus, Norman Brelsford of Superior, Ron McKeever of Wymore, Margot Ann Uehling and Luanine Carlson of Gothenburg, Ronald Rogowski of Hemingford and Joyce LaDon Kaufman of Gering.

The presentation will be made at the Capitol building at 10:15 a.m. following a tour of the statehouse, the winners and guests will be entertained at a banquet at the University Club at noon Saturday. The Rev. Lloyd Watt, president of the League, will preside.

The essay committee included the Rev. Kenneth Yingst, the Rev. W. H. Holverson, the Rev. Lloyd Bliss, the Rev. Selden Dickinson and the Rev. James K. Lyon.

Avalanche Kills Skier; 2nd Lost

BREGENZ, Austria (AP) — A late-season avalanche roared down on five West German skiers Wednesday from the Albona Mountain, near Stuben on the Arlberg, and police reported one was killed and another missing.

Three skiers managed to free themselves. A fourth was dug out by Austrian mountain rescuers, but died en route to a hospital. The fifth skier was still missing by nightfall despite a feverish search.

The accident raised this season's Austrian avalanche death toll to 17.

Tennesseans Who Observe 'Fast Time' Are Facing Arrest

NASHVILLE, Tenn. (AP) — City Attorney Raymond Leathers said he has advised Police Chief D. E. Hossee to investigate reports that Kimbrough-Phillips Insurance Co. officials and employes are observing "fast time" here and to arrest anyone he found observing such time.

The 1957 legislature passed a law prohibiting any kind of time in Tennessee except "standard time" and providing for fines and imprisonment up to 30 days for each violation.

Employes of the insurance company moved the firm's street clock ahead by one hour. Leathers said moving the clock ahead an hour would not constitute a law violation but that only "actual observation" of fast time could be regarded as a violation of the new law.

Roy L. Kavanaugh, vice president of the firm, said the clock was set ahead to "step up progress" and not to invite a lawsuit to test constitutionality of the law.

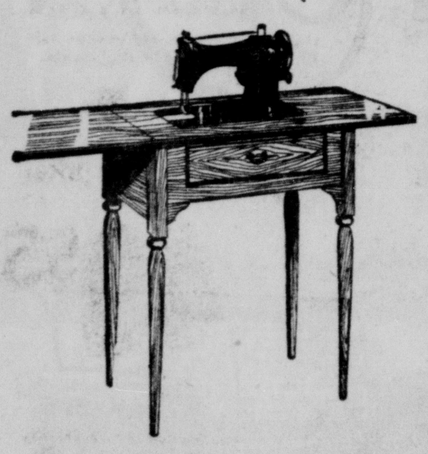

Soviets Cited

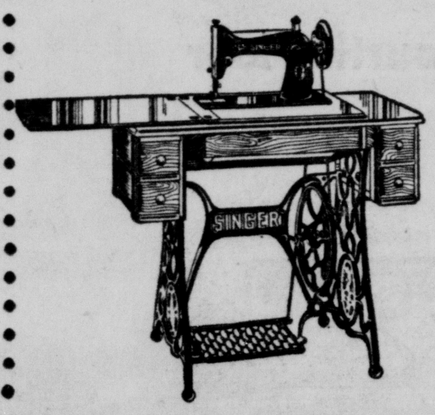

LONDON (INS) — The British government said it believes Soviet bloc technicians are training Syrian soldiers to use weapons and equipment the Reds have furnished.

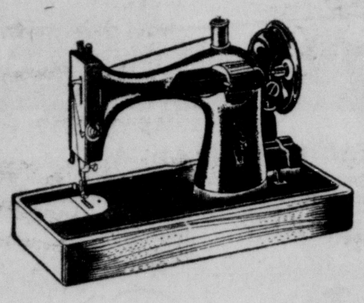

Lord Home, the secretary of state for commonwealth relations, told the House of Lords that Syria had received $56 million worth of military equipment by the end of last October.

Nebraska News

Missouri Power Needs Should Come First—Coad

WASHINGTON (AP) — Rep. Coad (D-Iowa) said Wednesday the needs of power generation must be met first during periods when there isn't enough Missouri River water to satisfy fully the demands of both power and navigation.

Coad was the first witness before the Senate Public Works and Interior Committee at the opening of a three-day hearing into complaints of misuse of Missouri River water.

He suggested two "long term solutions" to the problem but said in the interim period basin projects should "provide fully for power needs before diverting any of the water for navigation."

Steam Power Plan

Coad said slack water navigation would help preserve water for power generation and improve flood control. His other suggestion was for steam power to back up hydroelectric generation. He said this could be done economically because of a large supply of low cost lignite available in North and South Dakota.

Sen. Murray (D-Mont), chairman of the interior committee who is presiding at the joint committee hearing, said in an opening statement that the river presents "some extremely difficult management problems."

The flow of the river is limited, he said, and there tends to be competition between upstream and downstream uses for the limited flow.

The senator repeated an earlier statement that "the real solution is in finding ways to meet all needs, not merely one or another of them."

The hearing resulted from resolutions by the Montana, North and South Dakota Legislatures calling for an inquiry into use of the river water.

Nebraskans On Hand

Upstream complaints have been largely that downstream navigation interests are being favored at the expense of upstream power.

Witnesses were on tap from Wyoming, Montana, North and South Dakota, Kansas, Nebraska, Iowa, Missouri and Minnesota. Colorado is not on the docket.

James R. Smith of Omaha, Missouri division director of the Mississippi Valley Assn., was to present that organization's views on the controversy.

Both the Army Engineers and Bureau of Reclamation are expected to be asked for their opinions during the hearing.

Hearing Scheduled On School Merger

WAYNE, Neb. — Hearing on the proposed merger of rural school Districts 88 and 20, west of Wayne, will be held at the courthouse here May 14 at 10 a.m. If approved the merger goes into effect in June.

Spidel Trucks Now Licensed In Nebraska

OMAHA (AP)—The Omaha World Herald said the Spidel Farm Supply Co., of Waverly has now licensed two truck-tractors, a panel truck and a trailer in both Iowa and Nebraska.

The company last week was fined in Fremont Justice Court on counts of failing to have vehicles licensed in Nebraska and failing to have Nebraska license plates. The fines have been appealed to the District Court.

The World Herald said the four vehicles were licensed in Lincoln this week and quoted Mrs. Frances Osler, head of the Council Bluffs license bureau, as saying the company asked a refund on its Iowa plates.

The paper said Mrs. Osler declared no refund could be made and the vehicles "are still licensed in Iowa."

James Spidel, secretary-treasurer of the Waverly company, was quoted as saying "we had no other choice but to license in Nebraska until this court case (Fremont) is settled. There is nothing subversive about the Iowa corporation. "We do a lot of business over there. . . and we hope to do more."

The firm's Iowa incorporation papers list George Spidel, master of the Nebraska Grange, as president.

Lexington Selected As Site For 1957 Corn Picking Meet

OMAHA (AP) — Dawson County, which has produced the largest total yield of corn in Nebraska for the last three years, has been picked as the site of the 1957 Nebraska corn picking contest.

The contest will be held Oct. 8 near Lexington, it was announced Wednesday by WOW-TV and WOW, one of the sponsors of the annual event. The University of Nebraska College of Agriculture and the Lexington Chamber of Commerce are co-sponsors.

Lincoln Work Contracts OKd By Consumers

COLUMBUS, Neb. — Consumers Public Power District announced its Board of Directors had approved $98,247 in contracts for equipment and construction work in eastern Nebraska.

The contracts cover the purchase of 20 transformers, including two network transformers, costing $49,067. Also purchased were two network protectors, at $9,825, for underground power line construction work in downtown Lincoln.

Underground Project

H. L. Carson, operations manager, stated that $39,365 of the contracts went for work and materials for the underground work in Lincoln. He pointed out that underground power line will cost $14,615 for the 10,500 feet of line needed to complete the job. The project, designed by Consumers to improve service to its downtown Lincoln customers and to help eliminate other problems, will be in the alley between 13th and 14th and "O" streets and also the alley on 13th and 14th between "N" and "O" streets.

Carson said that the Dobson Brothers Construction Co., Lincoln, submitted the winning bid to handle the underground construction job. Dobson was awarded the contract for $24,750. Carson stated that the project, a continuation of underground work started earlier by Consumers, is expected to get underway within 30 days.

CPPD officials said the transformers will be put into service at several cities, including Superior, Lexington, Columbus, York, Scribner, Dakota City, and Heartwell.

Dr. Casebeer, 50, Former Resident Of York, Is Killed

YORK, Neb. — Word has been received here of the death of Dr. Harvey L. Casebeer, 50, physician at Butte, Mont., and formerly of York. He was killed in an auto accident at Butte.

Born at York, he was graduated from York High School, studied at York College and received his degree in medicine from the University of Nebraska. He has been practicing in a clinic at Butte for many years.

Surviving are his wife, the former Mariette Cain of Aurora; two children; his mother, Mrs. Mary Casebeer, four brothers and sisters.

Policeman Fired On Threat Charge

OMAHA (AP) — Probationary Omaha Policeman Venerio Astuto, 25, was fired from the force by Chief Harry Green for, Green said, having threatened an Offutt Field airman the policeman charged with having taken "my girl" to a dance.

Airman Rudolph Hofheinz told Chief Green that Astuto threatened him with a beating and even with being shot. Astuto, the chief said, admitted threatening to strike the airman but denied any threat to use a gun.

The chief quoted the girl as saying she had been going with Astuto for three or four weeks and understood he was separated from his wife.

Consumers' Milford Lines Damage Reaches $30,000

COLUMBUS, Neb. — Twister damage to Consumers Public Power District's power lines and equipment in the Milford area will total more than $30,000. That was the estimate of CPPD officials here in Lincoln who checked over damage reports from last Thursday night's big blow.

The officials reported that CPPD lost about 40 power poles, three huge transformers, voltage regulators, power line and other equipment. They said Consumers' crews and special equipment spent more than 40 continuous hours on the job in Milford and surrounding areas hit by the storm. The big jolt was at the Milford sub-station which was twisted by the wind and lost all its equipment.

Mobile Power Unit

Milford, the hardest hit by the Thursday twister, was without power from shortly after 6 p.m. Thursday until about 6 p.m. Friday. CPPD had 80 men and 25 trucks and other special equipment on the Milford scene a few hours after the storm hit until Saturday afternoon.

The special equipment included a mobile power unit. The unit was brought in from York to handle the water pumping chores during the power outage. The special mobile generator remained on the job at the water tower as an insurance measure until Saturday morning. Crews and other equipment were hurried into Milford from Lincoln, York, Beatrice, Kearney, Tekamah, Orleans and Seward.

Besides the heavy damage to Milford, CPPD also had trouble with two miles of 34,500-volt line between Lincoln and Seward. A "two-way" service in the area protected rural and city customers from outages. CPPD also had some power failures at Friend, Dorchester, Geneva, Exeter, and Fairmont.

Harrison Schedules Visit To Polk County

Lincoln Star Special

OSCEOLA, Neb. — Congressman R. D. Harrison of Norfolk will be in Polk County next week to meet with various interested persons in regard to problems pertinent to Congress.

Youths Begin Paddling Way Across Nation

DENVER (AP) — Four cheerful, husky young men slipped two heavily loaded canoes into the South Platte River Wednesday and paddled away toward the East. Their destination is Old Town, Maine.

By mid-October—perhaps earlier, if all goes well—the quartet and their frail craft hope to reach journey's end in Maine.

Their leader, blond Ed Vestal, 29, a ski instructor at Aspen, Colo., figures that by that time they will have covered about 4,500 miles of streams, lakes—and portages.

Others in the expedition are Jerry Hewey, 27, of Cape Elizabeth, Maine; E. G. Rickers, 29, formerly of Berkeley, Calif., and Bengt (Red) Soderstrom, 32, also a ski teacher at Aspen.

They'll paddle about 350 miles before reaching the confluence of the stream with the North Platte in Nebraska, probably May 11. They figure on reaching the Missouri River 11 days after that and the Mississippi by June 4.

Then will come the Great Lakes.

Farmers May Seek Demos' Help—Kreader

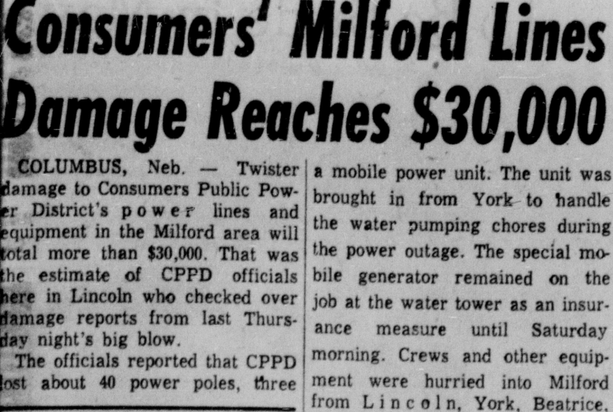

DALTON, Neb. (AP) — Farmers are "getting fed up" with the Republican farm program and may turn to the Democrats, C. H. Kreader of Dalton, former president of the Nebraska Wheat Growers Assn., said Wednesday.

Kreader, a registered Republican, declared that at a meeting of 43 members of the board of directors of the wheat growers at Ogallala, strong dissatisfaction was expressed by most over the present farm program.

He said if farmers cannot get a suitable farm program under the Republicans they are likely to turn to the Democrats.

It is the theory that lower prices and smaller growing areas will result in trimming of surpluses that is coming under attack from Nebraska farmers.

No Other Paper Like It! Only this paper carries all of the splendid features you are reading in this issue.

Nebraska Lies Within Rain Belt

Scattered showers and thunderstorms are expected Thursday in the Rockies, the Great Plains, and the Gulf coast area northward to the lower Ohio Valley. The rest of the country will have clear to partly cloudy skies except for showers near the southern shore of Lake Superior and the north Pacific coast. It will be cooler in the northeast quadrant of the country and in the Great Basin. (AP Wirephoto Map)

THINGS ARE HAPPENING IN TOWN

THINGS are happening this week —Hear that a series of festive events begins this morning with a 10 o'clock to 12 o'clock coffee at Hotel Cornhusker — a welcome gesture for the wives of the historians who are here to attend the 50th anniversary meeting of the Mississippi Valley Historical Association. And did you know that the Association was founded in Lincoln? At that first meeting there were six historians present, including the late Charles S. Paine of Lincoln. Now the Association has over 3,000 members.

Historians from near and far will participate in the three-day meeting which opens today and continues through Saturday but we are particularly interested in the historians' wives — such as Mrs. Thomas Clark of Lexington, Ky., wife of the Association's president; Mrs. John Hicks of Berkeley, Calif.,—and Mrs. Dwight Dumond of Ann Arbor, Mich., and numerous others.

This afternoon the distaff side of the Association will be entertained at a tea between the hours of 2 o'clock and 4 o'clock at the home of Dr. James Sellers, with Dr. Sellers' daughter, Mrs. John Angle, and Mrs. James C. Olson, the hostesses.

On Friday the ladies will be entertained at luncheon at the University Club.

* * *

AND on Friday evening, at Hotel Lincoln, the Mr. and Mrs. Club will be having their spring party —The guest couples at the affair will include Mr. and Mrs. Wendell Mayfield, Mrs. and Mrs. Jerry Donahue, Mr. and Mrs. John Kuhl, Mr. and Mrs. Kenneth Maser, Mr. and Mrs. Max Bohmont, Mr. and Mrs. Neale Copple, Mr. and Mrs. Charles Letheby and Mr. and Mrs. Kenneth Hultquist of York.

* * *

OUR grapevine tells us that Mrs. Samuel C. Waugh is due to arrive from Washington, D.C. on Sunday, and that she will spend a few days visiting Lincoln friends before going on to Dallas, Tex., where she will spend some time as the guest of her son-in-law and daughter, Mr. and Mrs. Carl H. Gibke.

AND ARRIVING next Wednesday will be Mrs. David Olson and her young son, "Chad", who will be coming from Newport, R.I., to be the guests of Mrs. Olson's parents, Mr. and Mrs. O. M. Anderson, and Ens. Olson's family, Mr. and Mrs. Carl Olson.

Mrs. Olson, the former Agnes Anderson, and young Chad will remain in Lincoln for several weeks—while Ens. Olson is on a navy cruise.

HAVE A recent communique concerning Mr. and Mrs. R. E. Campbell who have been spending several weeks abroad. Mr. and Mrs. Campbell, so we hear, now are in Ireland where they plan to remain for another week or so—But when the Campbells do return home it will be on a non-stop flight from London to Chicago.

* * *

HEAR that Mrs. John C. Whitten is in Broken Bow this week—and that the piece de resistance of the visit is the birthday anniversary of her father, T. T. Varney.

* * *

TOOK a look at next week's calendar and found that on Tuesday afternoon there is to be a party at the Officers Club for which Mrs. James Sweesy and Mrs. Robert Miller will be hostesses when they entertain in farewell courtesy to Mrs. Robert Teasdale who leaves soon with Capt. Teasdale for a tour of foreign duty. The Teasdales will be stationed in England.

THE STAR IN SUBURBIA

There are plenty of conversation topics in the Eastborough vicinity these days, and not least among them is "spring." The spring topic has many angles — the one that points towards vacationers and travelers; the question of when and where to have a neighborhood picnic; the recent activities on the Eastborough Swimming Pool Board Committee, and the news of residents moving to and from the community.

If you recall, last week we told you about a new member to the bassinet set who is Miss Judith Lynn Harrington. This week, we have a bit of news concerning her mother, Mrs. Robert Harrington, who was supposed to have been the honored guest at a pink and blue shower last Wednesday at the home of Mrs. Reg Davies. As the story goes, the shower was given with all guests present except the honoree —she and her young daughter still were at the hospital. At any rate, the 10 neighborhood ladies had a very enjoyable evening, and they later called on Mrs. Harrington to present her with the array of gifts and best wishes.

On Sunday, May 12, Eastborough friends of Mr. and Mrs. Charles Rider, Gayle and Cheryl will be bidding them a fond farewell, for on that day they will leave for their new home in Kansas City, Kan. Mr. and Mrs. Rider now reside at 267 West Rio Road.

Mention of the Rider family reminds us that they will be honored at several farewell get-togethers in the neighborhood before their departure. Complimenting Mrs. Rider on Wednesday will be Mrs. William Verner, who will be hostess at an informal morning coffee. Included in the guest list besides Mrs. Rider will be Mrs. Dean Messman, Mrs. Eugene L. Davila Mrs. Marvin Morgan, Mrs. Donald Shilling, Mrs. Robert Robinson and Mrs. Edward Dierks.

We are about to disclose some information that will be of particular interest to Eastborough residents. In case you haven't heard, the Eastborough Swimming Pool board members met last Tuesday evening in the Activities Building of Meadow Lane School to discuss plans for the re-opening of the neighborhood pool. Present board members are Reg Davies, Jerry Donahue, Galen Fritchie, Jack Way, Mrs. William Hoffman, Robert Harrington and Gerald Custer. Activities at the pool will begin on Sunday, June 9, which is the date they have set for the re-opening. Life guard will be John Reta, who is swimming coach at Southeast High School.

We have another addition to our list of vacation-bound residents this week. It will be on Friday when Mr. and Mrs. Walter Petersen and their son, Walt, will leave for a jaunt to Lakewood, Fla. The Petersens will return to their Eastborough home in about a week.

We Hear That

Mr. and Mrs. Guy V. Newcomer returned to Lincoln last Monday from a seven-month vacation in Florida. Accompanying the couple on their trip through Florida was Mrs. Newcomer's sister, Miss Agnes Hoyt of Tucson, Ariz. Miss Hoyt will leave Lincoln on Thursday to return to her home in Arizona.

★

Don Sherwood, son of Mr. and Mrs. Hugh Sherwood, who is a student at the University of Minnesota, has been elected chapter president of Theta Xi fraternity.

To Be Bride In May

MISS MARY JANE JOY

Mr. and Mrs. Richard D. Joy this morning are announcing the betrothal of their daughter, Mary Jane, to Peter Hains Laimbeer, son of Mrs. Wiser Brown of Fox Chapel, Pa.

The wedding will be an event of Friday, May 24, the wedding anniversary of Mr. and Mrs. Joy.

A graduate of Brownell Hall in Omaha, the bride-elect is a former student at the University of Nebraska.

Mr. Laimbeer attended Brooks School, North Andover, Mass., and the University of Nebraska, and has completed his service with the Army including two years duty in Alaska.

State Council Plans Meeting

The regular spring meeting of the Nebraska Council of State Women's Organizations will be held next Tuesday at the Lincoln YWCA, with Miss Florence Atwood, president, presiding.

Following a short business meeting, an address, "What Every Woman Should Know", will be given at 10:30 o'clock by Robert McNutt of the First Trust Company.

Guest speaker at the noon luncheon will be State Senator Kathleen Foote, and the afternoon program on the topic, "Investments, Real Estate, Insurance", will be followed by a question and answer period.

Holmes PTA Board To Meet

The executive board of Holmes PTA will meet at 7:30 o'clock Thursday evening in the school library for its final meeting of the year. Plans will be discussed for the annual May breakfast and the school's Play Day, which will be held Tuesday, May 21, at the school.

PEO Chapters Chartered

Mrs. Roy V. Thornton of Mundelein, Ill., recording secretary of the Supreme Chapter of PEO, presented charters to two new chapters at the organization's annual convention being held at Columbus this week.

The charters were presented to Miss Eleanor Anderson, president of Chapter FX of Lincoln, and to Mrs. James Wirth, president of Chapter FW, also of Lincoln.

Included in the convention agenda on Wednesday were reports on the PEO Home at Beatrice given by Mrs. Roy Livingston of Fairbury, chairman of the board of trustees for the Home; Mrs. Nettie Brown of Beatrice, Home superintendent; and Mrs. Earl Lee of Fremont, secretary-treasurer of the board.

Following the smorgasbord dinner at the Columbus National Guard Armory Wednesday evening, an educational program was presented. The convention will close with the installation of officers and luncheon Thursday noon.

Had Morning Wedding

MRS. DANIEL J. BENES

The altar of St. John's Church at Weston was decorated with bouquets of gladioli in spring shades for the wedding of Miss Dorothy Ann Sabatka, daughter of Mr. and Mrs. John J. Sabatka of Ceresco, and Daniel J. Benes, son of Mr. and Mrs. Andrew L. Benes, on Wednesday morning, May 1. The 9:30 o'clock ceremony was solemnized by the Rev. Otto Ekhamal, and Angela Pascal, organist, played the wedding music.

As her sister's maid of honor, Miss Rita Sabatka of Ceresco wore a waltz-length frock of pink lace and net over taffeta accented by a snug jacket of the lace. Frocked in leaf green lace and net were the bridesmaids, Miss Margaret Benes of Lincoln, sister of the bridegroom, and Miss Phyllis Holoubek, Wahoo. The attendants carried bouquets of daisies tinted to contrast with their ensembles, and wore wide-brimmed hats of tulle trimmed with the blossoms.

Ivan Benes of Valparaiso served his cousin as best man, and the ushers were Robert Benes, Lincoln, brother of the bridegroom, and Edward Kacerik, Weston.

The bride's gown was fashioned of white lace and tulle over satin. The molded bodice of lace was designed with a petal collar, trimmed with pearls, and long, tapered sleeves, and the wide skirt was formed by alternating panels of lace and tulle and ended in a whisper train. Her illusion veil was held by a coronet of jeweled lace, and she carried a bouquet of white carnations centered with an orchid.

A reception for 100 guests was held in the gymnasium of St. John's School following the service.

Mr. and Mrs. Benes will make their home in Lincoln.

Honored At Farewell Luncheon

An honoree on Wednesday afternoon was Mrs. Louis Thorup, who with Col. Thorup and their children will leave Lincoln later this month for Col. Thorup's new station at Westover Air Force Base in Massachusetts.

Mrs. Thorup was the guest of honor at luncheon for which Mrs. Charles Englehart and Mrs. Henry C. Godman were hostesses at the Intercom Club.

Seated (from the left) are Mrs. Felix Hardison, Mrs. Englehart, Mrs. Thorup, Mrs. Godman, Mrs. Theron Crorey and Mrs. Delos Richard. Standing (left to right) are Mrs. Dan Rogers, Mrs. Ralph Bond, Mrs. Beach Thurlow and Mrs. Elkins Read.

Madam Chairman

Girl Scout troop organization committee, 10 o'clock at the Girl Scout office.

LAFB Officers Wives Club, 343rd bomb squadron, 10 o'clock coffee at Cotner Terrace; 98th air refueling squadron, 10 o'clock coffee at Cotner Terrace.

U.S. Chamber Opposed To Ike Budget

High Taxes, Spending Are Cited

WASHINGTON (AP)—The United States Chamber of Commerce Wednesday voted overwhelming opposition to almost every major new spending proposal before congress.

Its target included President Eisenhower's programs to assist school construction and depressed cities, and a Democratic plan for government construction of atomic power plants.

After a three-day annual meeting at which speakers daily belabored high taxes and federal spending, the chamber raced through a policy session in 3½ hours. It declared its stand on 69 national issues.

Two Floor Battles

On only two of these—aid to depressed areas and public housing—did real floor battles develop. The greater Providence (R.I.) Chamber of Commerce favored Eisenhower's plan to help areas of chronic joblessness, and Chicago's Association of Commerce and Industry plugged for "minimum" federal outlays for public housing.

The Providence and Chicago spokesmen were swamped in the evident determination of the 700 voting delegates to curb government intervention in the country's economic life and to spike new spending plans.

In its new resolutions the national chamber placed its 3,100 affiliated organizations and their 2½ million businessman-members on record as:

1. Opposing the pending legislation that would authorize a multi-million dollar government program of construction of nuclear reactors to generate electric power.
2. Opposing the Eisenhower program of federal loans and grants for school construction.
3. Endorsing in effect a natural gas bill, which is similar to the measure vetoed by Eisenhower last year because of lobbying irregularities.
4. Favoring a complete cut-off of federal appropriations and participation in the financing of "public subsidized housing."

Children's Dentistry Group Elects

Dr. E. G. Wilkinson of Lincoln (center) was installed as president of the Nebraska Society of Dentistry for Children at the closing session of the Nebraska State Dental Association convention. Other new officers are (left) Dr. Donald H. Stormberg of Omaha, secretary-treasurer, and Dr. W. F. O'Rourke of Scottsbluff, president-elect. **(Star Photo)**

SPEECHES, CLINICS AND BUSINESS MARK DENTAL CONVENTION END

The Nebraska State Dental Association wound up its 89th annual convention in Lincoln Wednesday with several speeches, afternoon clinics and a business session.

The association again went on record as favoring addition of fluorides to drinking water to help reduce tooth decay. The organization first went on record in favor of fluoridation in 1951.

Dr. W. F. O'Rourke of Scottsbluff was chosen president-elect of the association's Society of Dentistry for Children. Dr. E. G. Wilkinson of Lincoln was installed as president and Dr. D. H. Stormberg of Omaha was re-elected secretary-treasurer.

Dr. Roy L. Bodine, chief of dental services at Beaumont Army Hospital in El Paso, Tex., and Dr. Douglas H. Yock, of the University of Minnesota school of dentistry, spoke at the morning session.

Display-type clinics featured the afternoon program. The displays were set up around the floor of Pershing Municipal Auditorium and offered exhibits and pointers on various dental subjects.

The association also went on record as favoring:

That a course of dental hygiene be established at the University of Nebraska "to help the dentist in his task of caring for the dental needs of Nebraska's children."

That the State Health Department co-operate in the further studies of providing adequate care for the cleft palate cripple in Nebraska.

Whitehead To Address Dinner Here

Don Whitehead, two-time Pulitzer Prize winner and Washington bureau chief of the New York Herald Tribune, will discuss the FBI in his address at the University of Nebraska's Journalism Day banquet Saturday at 6:30 p.m. in the Student Union ballroom.

Whitehead

A former Associated Press correspondent and author of the best - selling book, "The FBI Story," Whitehead will deliver the 28th annual Don R. Mellett lecture, which is given each year at a different university.

Mellett was assassinated in 1926 because of his newspaper crusade against vice and corruption in city government.

A limited number of tickets for the banquet are available to the general public, the NU School of Journalism said.

State Bank Report Drops $6 Million

The State Banking Department reported Wednesday that as of March 14, a comparative summary of the resources and liabilities of 292 Nebraska state banks showed a decrease of $6,037,262 under the figure recorded for April 10, 1956.

Deputy Banking Director C. R. Haines said this "was not a surprising decrease" in view of the fact that Nebraska "had very little in the way of a corn crop last year to bolster the state's economy."

Haines also explained that the state's resources usually reach their low point June 30 and their high point at the end of the year.

A comparison of the resources and liabilities on the March 14 date and those of December 31, 1956 shows a decrease of $26,204,156.

Haines said this figure would continue to decrease as we approach June 30.

The Banking Department reported the following figures on the March 14 call of the state's banks:

	March 14, 1957	April 10, 1956
Total Resources	$446,672,104.24	$452,709,366.59
Total Deposits	400,568,970.58	409,195,279.04
Total Liabilities	402,859,944.75	410,751,419.91
Total Capital Accounts	43,812,159.49	41,957,946.68
Total Liabilities and Capital Accounts	446,672,104.24	452,709,366.59

Heir To Millions W. W. Mein Weds Ex-Family Cook

SAN FRANCISCO (AP) — An heir to cattle millions slipped quietly into a Catholic Church Wednesday and married a dark-eyed German girl who was once the family cook.

Then, eluding the curious, the two climbed by stepladders over backyard fences and hurried off for a short honeymoon.

In little more than a week, tall, 21-year-old William Wallace Mein III must wind up a furlough from U.S. Marine training. Thwarted before he became 21 last February from marrying 24-year-old Isolde Constantini, young Mein joined the Marines three months ago with the blessings of his parents, who hoped he would forget the brunette immigrant from Mannheim.

But Tuesday, three days after he arrived from San Diego on furlough, he took out a marriage license.

Wednesday Mein and Isolde exchanged vows in St. James Catholic Church before six persons, most of them relatives of the bride.

Mein's mother, Mrs. William Wallace Mein Jr., who once went to court and asked an annulment in the mistaken belief the pair already had married, is in Rome. She is heiress to the millions of a onetime California cattle and land baron, Henry Miller.

Services Friday For Olin M. Baker

Lincoln Star Special

BLUE SPRINGS, Neb.—Funeral services for Olin M. Baker, 76, formerly manager of the Barneston Lumber Co., will be held at 1:30 p.m. Friday at the Laughlin Funeral Home at Wymore. Burial will be in Memorial Park Cemetery at Lincoln.

$100,000 POLIO VACCINE FUNDS TO BE LEFT UNUSED

"Something in excess of $100,000" in unused vaccine funds will revert to the federal government when the State Health Department closes up shop in its polio division on June 30, according to State Health Director Dr. E. A. Rogers.

That amount will remain of the $366,061 allocated to Nebraska for vaccine since the federal immunization law went into effect on Aug. 12, 1955.

"It's difficult to estimate exactly how much federal money will be left over when the program expires," Dr. Rogers said, "because there's really no way we can estimate how much will be used between now and the end of June.

"However, at the present time we have over $150,000 in federal funds still unused."

The reason for the inability to use all the funds, according to the Health Department head, is a lack of state money to administer the program.

After June 30, he said, all polio immunization will be handled through regular commercial channels. This will include inoculation of those persons who have previously been receiving preferential treatment, such as pregnant women and persons under 20 years of age, Dr. Rogers said.

The federal law provides that states may place orders for vaccine between now and the expiration date for delivery later on.

There are no plans for such orders in Nebraska at the present time, although Dr. Rogers said that there is a "good possibility" that there will be a number of last minute orders. For the most part, he said, they will be second and third shots for those in clinics which got off to a late start in the program.

Mid-State Reclamation Bill Reconsideration Is Asked

A bill which would have insured the Mid-State Reclamation District a one year lease on life, indefinitely postponed by the Legislature Tuesday, was the subject of a motion for reconsideration by Sen. Peter Claussen of Leigh Wednesday.

Any action on claussen's motion was deferred until Thursday.

The motion came late in the forenoon, while another measure was pending, and because the Legislature was to spend the afternoon visiting the University of Nebraska medical college in Omaha, no time was available for discussion.

The Mid-State bill, LB 527, introduced by Sen. Norman Otto of Kearney, was killed on a 21-19 vote Tuesday. But only 22 favorable votes are needed to bring about reconsideration when the revival move is made within one day. Claussen's motion met the one day requirement.

LB 527 would defer until the general election of 1958 a popular vote on continuance of the Mid-State District should actual construction not be under way by then. Under present law the election will be held in November of this year.

Grade-A Milk Bill Battered But Alive Following Legislative Battle

By ROY CAMPBELL
Star Staff Writer

A legislative bill limiting all commercially sold mik to Grade-A quality ran into a floor fight Wednesday and barely escaped with its life.

The measure, LB 584, survived a motion to kill made by Sen. Terry Carpenter of Scottsbluff. The vote was 19-16 against. Another Carpenter motion, to make the bill effective to producers starting milk production after 1956, went down with a 21-14 vote.

Introduced by the Agriculture Committee, LB 584 replaced a previous bill, LB 533, to require only Grade-A milk production. Two amendments to LB 584 approved in a close vote Wednesday set out the specific items produced and who could sell without the Grade-A tag.

The amendments, the first test of strength for the measure, were approved 19-14 over Carpenter's objections and heavy debate on the whole measure.

Included in the restrictions of the Grade A clause in the bill are milk, cream in any form or combination, buttermilk, cottage cheese or skimmed and concentrated milk.

Sen. Otto Liebers of Lincoln, a principal backer of the bill and a dairyman, told the senators the bill would not hinder the production of Grade C milk, but this could only be used in milk products, such as cheese, ice cream and butter.

Just On Farm Sales

The sale of raw milk, though, could only be conducted on the farm and farmers could not advertise the milk nor could they deliver it into town. Farm sale of milk could only occur by purchasers going to the farm itself.

Sen. Liebers cited in debate 22 cases of human brucellosis which he said had been recorded since the first of the year. These were attributed, he said, to the consumption of raw milk on the farm and in some towns. The senator said also that the small producer would not be put out of business by the measure, but those wishing to continue to produce milk would have to conform to Grade A standards.

The restrictions of the bill would be enforced after July 1, 1959, which Liebers said would be sufficient time for producers to conform to Grade A standards.

Sen. Carpenter in floor debate said the measure has "some merit" but questioned if the merit "offsets the disadvantages." He said many small producers would be put out of business.

'Tight' Organization Hit

Stating he himself was once in the dairy business, Carpenter struck sharply at the organization of dairy producers in the United States. If there were any organizations "tighter than the creamery organization, I do not know it," Carpenter said. He added the "independent man cannot exist and he does not exist."

Questioning also the health hazard of drinking raw milk, Sen. Carpenter said "farmers are not dying like flies because they drink their own raw milk." He was backed by Sen. Frank Nelson of O'Neill who said a neighboring farmer of his just turned 101 years old and has been drinking raw milk for "100 of those years."

One of the benefits of the state requiring all Grade A production of milk, according to Sen. Liebers, would be the export potential. To this, Carpenter said the export of Grade A milk from Nebraska "is a myth."

'Monopoly Bill'

Other senators struck out at the measure. Sen. Hal Bridenbaugh of Dakota City said "This to me is a monopoly bill." And Sen. A. A. Fenske of Sunol said the bill would be "cutting the small farmers out of his livelihood."

Sen. William Moulton of Omaha told the senators that 85 per cent of the milk now produced in Nebraska is Grade A.

Final action on the bill is pending on a motion to advance it from general file, first place of consideration.

Voting on Carpenter's original motion to kill were:

For: Bedford, Bixler, Bridenbaugh, Burbach, Carpenter, Cole, Dame, Donner, Dooley, Kenske, Kotouc, McHenry, Nelson, Otto, Wagner, and Williams.

Against the kill motion: Adams, Beaver, Claussen, Foote, Lautenschlager, Liebers, McGinley, Moulton, Munnelly, Simmons, Stryker, Swanson, Syas, Tews, Thompson, Tvrdik, Vogel, Waggoner, Wood.

Not voting or absent: Aufenkamp, Bahensky, Jensen, Klaver, Pizer, Portsche, Ruhnke, and Waldo.

Army Engineers Program To Greatly Cut City Floods

A pronounced effect on floods in Lincoln — no overflow from such floods as those of 1950 and 1951 — would be the results of the Army Corps of Engineers flood control plan for this area.

That was the statement of Col. T. J. Hayes, Omaha district of Corps of Engineers, in an address before governors and federal agency representatives of the Missouri River Basin Inter-Agency Committee.

The Corps plan, including a flood control and recreation dam on Antelope Creek southeast of College View, would cost a total of $15 million of which $13.3 million would be borne by the federal government, Col. Hayes said.

12 Dams, Reservoirs

That plan includes a total of 12 dams and reservoirs, all but one of which will include permanent pools for fish and wildlife conservation. The first four structures would be located on Antelope Creek, Hickman Branch, Olive Branch and Haines Branch.

Other work under the Corps plan would include channel improvements, levees and necessary bridge alterations, Col. Hayes said.

Col. Hayes also explained the Soil Conservation Service plans for the upper Salt Creek and Swedeburg watershed to cost about $3,248,000 and for the Oak-Middle Creek watershed to cost about $3 million.

Both Plans Co-Ordinated

Both the Corps and SCS plan, he said, have been co-ordinated and the overlapping removed.

The average storage of SCS reservoirs will be 3.5 inches of runoff, Col. Hayes said, while the Corps' reservoirs will hold a minimum of 5 inches of runoff and up to 17 inches in one reservoir.

Col. Hayes cautioned the group to give consideration to steps that might be taken to protect proposed dam sites. Lincoln is close to the stage, he said at which the Antelope dam could no longer be built where planned because of residential growth of the city in the area of the site.

Meet Hears SCS Flood Control Plans

Flood control programs under the Soil Conservation Service of the Department of Agriculture and the degree of federal participation was explained at the Missouri River Basin Inter-Agency Committee meeting by John H. Wetzel, Washington, D.C., chief of the federal watershed planning branch.

Federal aid under the watershed program, he said, may be given on projects including drainage measures, irrigation and other agricultural water control plans. Drainage or irrigation, however, must be incidental to and not the primary purpose of the measure for which federal help is provided, he said.

Share Only Portion

The government will share only a portion of construction costs of structural measures aimed at drainage or irrigation, he said, and none of the cost allocated to non-agricultural purposes such as municipal or industrial water supply.

Total costs of structural measures are borne by the government when flood prevention is the only goal.

Wetzel listed these criteria used at the national level to determine eligibility and priority of applications for aid on watershed projects:

The Criteria

1. Desire and ability of local organization to participate in the program.
2. Essential land treatment measures in existence or installed within period of project installation.
3. Project will produce a benefit-cost ration appreciably in excess of 1 to 1.
4. Project an integral part of overall watershed plans and not single-purpose.
5. The project will enhance fish and wildlife resources.
6. The project will be harmonious with overall river basin development.

A report by Wetzel showed Nebraska with 13 applications on file for watershed projects with seven of them approved for planning. This is the highest number among the basin states with Missouri and South Dakota second with seven applications each on file.

Albion Freshman Elected Head Of NU Young GOP

Robert Krohn of Albion has been elected president of the University of Nebraska Young Republicans Club for the coming year.

He is a freshman in the College of Engineering and Architecture.

Other new officers: Monroe Usher of Lincoln, junior in College of Arts and Sciences, vice president; Joanne Allen of Blair, sophomore in Teachers College, corresponding secretary; George Raymer of Butte, junior in College of Arts and Sciences, recording secretary, and Don Huwaldt of Osmond, junior in Teachers College, treasurer.

The officers and the following two students will compose the executive board: Mary Lou Lucke of Omaha—freshman in Teachers College and Gary Rodgers of Osmond, —freshman in College of Business Administration.

Krohn said the club will "confront the students anew with their responsibilities in the functioning of local, state and federal governments."

Alliance Entertains Sowers As Second Day Of Tour Ends

Lincoln Chamber of Commerce Sowers representatives, some 60 strong, arrived in Alliance Wednesday night for dinner at the American Legion Club there. The Lincoln good will group continues its tour Thursday.

They were greeted by Chamber manager Paul Harm. Ray Ramsay was the Sowers speaker at the dinner.

The Sowers first stop Wednesday was Ainsworth where they were greeted by 300 persons and school was dismissed. Also on hand were Chamber president J. Gordon Wisda and Chamber secretary Bruce D. Skinner.

At Valentine 400 persons turned out to greet the Sowers including Chamber president Tommy Combs and Ray Dover, editor of the Valentine Republican.

A police escort led the Sowers into Gordon where 600 persons and the high school band, directed by Sidney Schelps, were on hand. Welcome flags were in evidence and school was dismissed. Greeting the Sowers were School Superintendent Russell Pedersen and Chamber President Bill Wilkins.

Lunch At Rushville

Warren Sawyer, president of the Rushville Chamber of Commerce, presided at a luncheon for the Sowers at the Methodist Church there, and lunch was served by members of the Women's Society of Christian Service. Seventy persons attended the luncheon.

At Hay Springs 250 persons and a band quintet, directed by Logan Keriakedes, met the Sowers, as did Chamber president John Keriakedes and Leo Wescott, editor of the Hay Springs News.

Dr. Barton Kline, president of Chadron State Teachers College, and City Manager Ken Kyle were among 450 who met the group at Chadron. School was dismissed and the Chadron Prep band, directed by Harry Holmberg, played for the Sowers. Mayor Cy Hall and Chamber president Ed Zahm were also present.

Chamber president Allison Johnson was among 400 persons who met the group at Hemingford. A band, directed by Mrs. Helen Hopkins, played for the Sowers before they left for Alliance.

SEAMLESS GAYMODES
better because they're barely there!

Better, too, because they're beautiful gifts at Penney's thrifty price. Seamless nylon sheers sheath her legs in one soft mist of color without any streaks or rings to mar the effect. Proportioned lengths. Sizes 8½ to 11.

STRETCHABLE GAYMODES
better because they give you the best fit!

Compare Penney's stretchables for sheerness . . . for clingy glamour fit . . . for low price! You'll discover they're the most beautiful buys around, the most beautiful hose she's ever worn. Dark and plain seams. Sizes Midge, norm, long.

drips dry forever smooth!
AIRY BEAUTY BATISTE!
Beauty batiste, a blend that's set the dream world spinning! Dacron for no-iron care! Nylon for super wear! Cotton for cool comfort! Needs no ironing!
3.98
Sizes 32 to 40

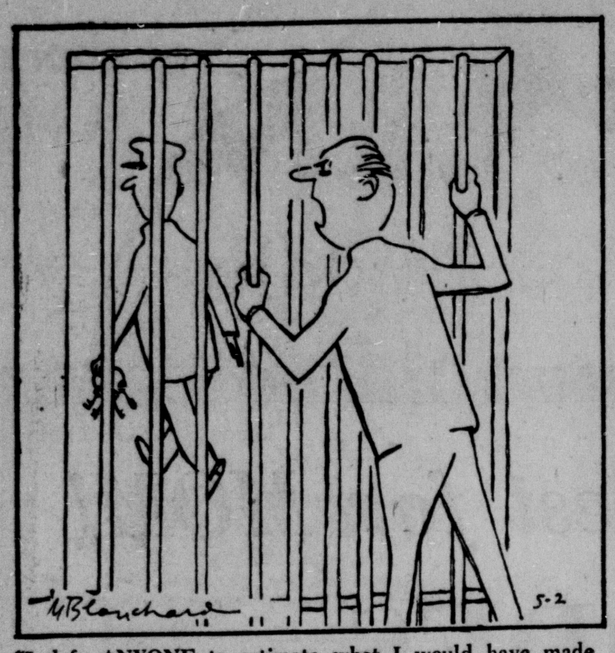

5.95
Whee! Thirty twirling yards
NYLON CAN CANS
Sets skirts 'n heads reeling! The biggest whirl in the world! 30 yards that never stop spinning! Nylon pastels suds, jiffy dry! Small to large!

Tremendous Value!
luxurious styling
NYLON GOWNS
Confection colors! Flirtation cut!
Perfection pleats! Our beautiful dreamers for MOM in nylon tricot that flounce through suds . . . drip dry, and never muss their pleats and prettiness! Sizes 32 to 40.

Here is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add three. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

BAERING DOWN ON THE NEWS By Arthur 'Bugs' Baer

Just 10 years ago to this paragraph all our volunteer astronomers were spotting escadrilles of flying saucers.

☆ ☆ ☆

It was 20 years ago that Ripley told me about flipping chinaware, celestial platforms and hand-tooled comets. It was my guess that Ripley was using the bottom of his julep glass for a telescope.

☆ ☆ ☆

Now the egg has come full oval, proving Rip was as correct as the answers in back of teacher's book.

☆ ☆ ☆

Ripley said the inter-hemispherical rocket was already barreling counter-worldwise in space. To be called down like a boy in a tree.

☆ ☆ ☆

The next step in Pandora's caisson is the moon target played with two-tailed comets by drunken astronomers.

☆ ☆ ☆

That will bring up the little men with glass heads using windshield wipers for eyebrows.

An astronomer is a stay-out late who only gets his head outdoors. A scientist is a man who explains a thing to you in the hope that he will understand it himself.

Sugar Man Scores In 5th Round

ROBINSON ROCKS FULLMER

Lincoln Trims Des Moines, 6-2

DES MOINES (AP) — Lincoln hit six consecutive safeties in the eighth inning to break a 2-2 tie and beat Des Moines, 5-2, for a split of their two-game series Wednesday night.

Dave Gerard suffered all the punishment in Lincoln's decisive inning, which began with a walk to Al Griggs. Griggs was forced on Mike Solomko's bunt, but successive singles by Harry Williams and Stan Malec supplied the winning run.

Willie Melendez, who had knocked in an earlier Lincoln run, then doubled for two more.

However, Melendez was out trying for a triple and the Chiefs got no nourishment from following singles by Harry Dunlop, Robert Sanchez and pitcher Art Miro.

Dunlop was out trying to score on Miro's hit.

Melendez was taken to a hospital after suffering a shoulder injury when he fell in trying to knock down a single by Carroll Gholson in the last of the eighth.

The first report was that he might have suffered a fractured clavicle.

The Demons landed on Rookie Miro for three hits and a 2-0 lead in the first inning, but wasted nine hits over the rest of the route.

Successive doubles by Jerry Sheehan and Gholson brought the Des Moines runs after Ernie Johnson singled. Don Urquhart relieved Miro after singles by Gholson and Lou Stringer with none out in the eighth and emerged without damage.

Miro fanned nine and gave no walks.

Injured Chiefs Return

Dick Wagner, General Manager of the Lincoln Chiefs, told The Star Wednesday night that Corky Glamp and Willie Melendez, a pair of injured Chiefs, would be flown to Lincoln today to undergo treatment.

Glamp has been ailing from an injured knee, which he suffered during spring training.

Melendez will receive treatment for a shoulder injury suffered in a dive for a ground ball in Wednesday night's game against Des Moines. It was first feared that Melendez might have suffered a fracture of the clavicle, but a later X-ray report indicated there were no broken bones.

Post Hit Winds Up Marathon

PHILADELPHIA (AP)—Wally Post hit a two-run single in the 16th inning, breaking up the season's longest ball game and giving Cincinnati an 8-6 victory over Philadelphia Wednesday night.

Post's game winning hit came after Ray McMillan led off with a single and Smoky Burgess followed with a pinch base hit. Johnny Temple's sacrifice set up the two runs.

Down 5-3 going into the eighth the first seven Phillies' batters reached base safely, but the best the home club could get was the two runs that tied it and sent the game into extra innings.

It started with Stan Lopata's single, Ed Bouchee followed with another single, but took a long turn around first. McMillan, fielding the throw in from the outfield by Post, saw Bouchee's mental lapse and fired the ball to Robinson who tagged Bouchee. Meantime, Harvey Haddix, running for Lopata, tried to continue on to third, but Robinson's throw got to Don Hoak first. Willie Jones and Harry Anderson followed with doubles, Bob Bowman walked Chico Fernandez singled and Granny Hamner, pinch hitting for Phils' starter Curt Simmons, fouled out to end it.

Virgil Trucks Halts Boston

KANSAS CITY (AP)—Virgil Trucks won his third game of the season Wednesday as he stopped the Boston Red Sox on two hits in 6 2-3 innings while the Kansas City Athletics rode to a 7-5 victory on the home run hitting of Harry Simpson and Gus Zernial.

Ted Williams also hit a homer, his fifth, in the first inning with the bases empty.

Both the Red Sox and Athletics teed off early on the starting pitchers, Dave Sisler of Boston and Tom Morgan, who lasted only 1 1-3 innings for Kansas City.

Minoso Batters Orioles

CHICAGO (INS) — Minnie Minoso drove in four runs Wednesday to help southpaw Jack Harshman chalk up his third straight win as the Chicago White sox belted Baltimore, 9-3.

Harshman, who was removed for a pinch hitter in the seventh inning, was protecting a 4-3 lead. Dixie Howell pitched the last two innings for the Sox to enable the Chicago lefty to run his 1957 record to 3 and 0.

George Kell, Orioles' third baseman, slapped four singles to pace his teammates nine-hit attack.

Minoso drove in a run in the first inning with a sacrifice fly and another run in the third with a single to tie the score at 2-2. During a four-run Sox rally in the seventh Minoso singled with the bases loaded to drive in two more runs.

Rookie rightfielder Jim Landis of the Sox belted three straight doubles.

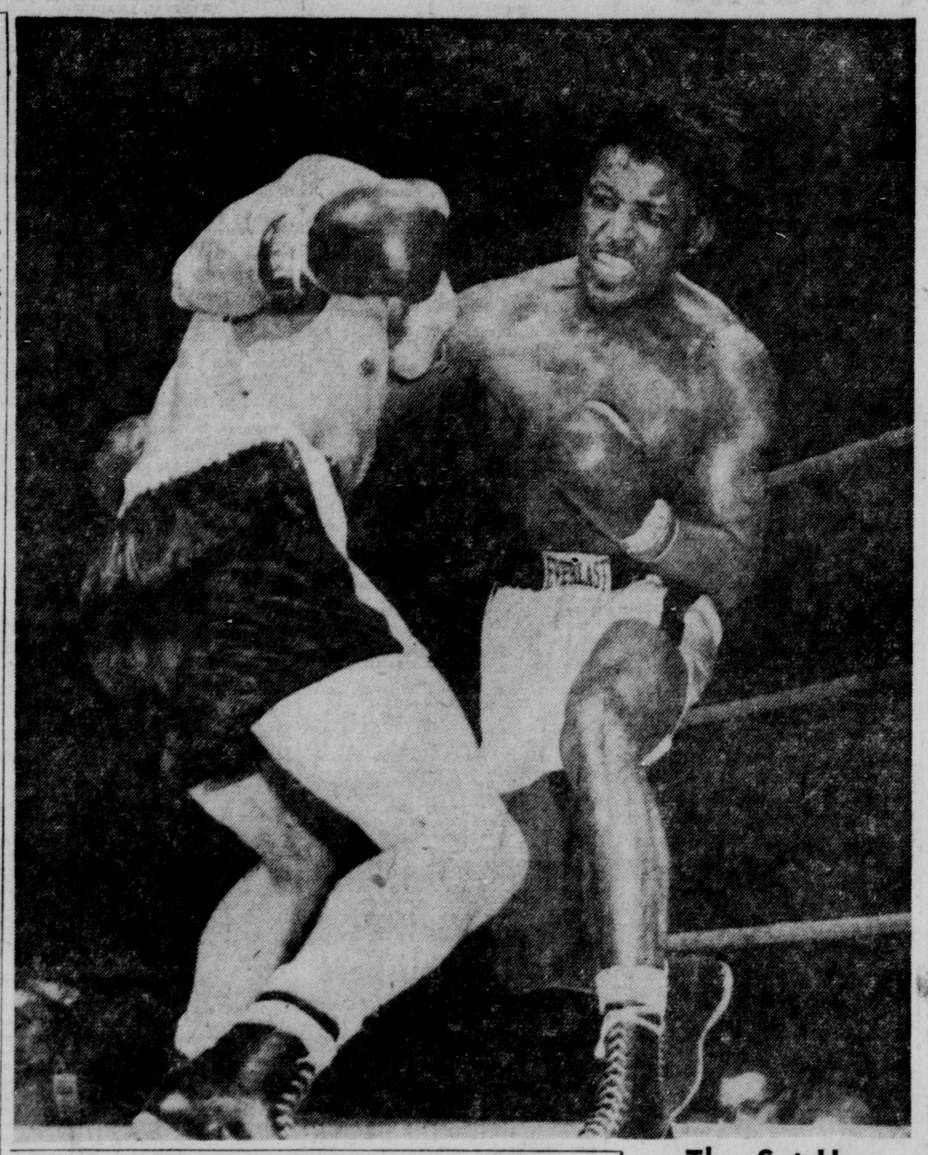

The Sox pinned the loss on "Broadway" Billy Loes, former Brooklyn righthander. Loes' record now is 1 and 2.

The Set-Up

Right before he won on a fifth-round knockout, Sugar Ray Robinson (right) tears into champion Gene Fullmer with a vicious right that set up a shattering left. The left ended the fight and Robinson was again middleweight champion. (AP Wirephoto.)

Only games scheduled.

Topeka Batters Sioux City, 7-4

SIOUX CITY, Ia. (AP) — Tamed on two hits for five innings by lefty Ed Ludwig, the Topeka Hawks turned to the long ball to batter the veteran Sioux City southpaw from the mound and take a 7-4 victory Wednesday night for a sweep of the two-game series.

Qualifying Under Way

The Nebraska high school district track and field program gets under way in full swing today with meets in Classes B, C and D at seven sites.

Class B meets are on tap today at Norfolk Junior College, Doane College (Crete), Bayard and Holdrege.

In Class C there is action at Doane and Boys Town. There will be D qualifying at Boys Town, Holdrege, Norfolk JC, Peru State Teachers College and Ord.

Two 1956 Class B state champions are slated to show their wares today.

Harley Fox of Gothenburg, 1956 Class B pole vault winner, will see action at Holdrege today. Cecil Chamberlain of Hebron, state discus champ, will compete in the same meet.

Larry Wood, lithe sprinter who gunned Wymore to the Class C championship last spring, is ticketed for competition in the Class B meet at Doane.

Class A qualifying is scheduled for Friday and Saturday.

Ogallala Pair Fined For Seining

OGALLALA (AP) — Two Ogallala men were fined a total of $125 and costs each in county court in connection with illegal fish seining.

Game conservation officer Loren Bunney said he was tipped off that the two men, O. W. Cerney, 37, and Walter Gake, 50, both of Ogallala, had boasted in a bar that they were going to seine fish. When the men arrived at Barry's Lake early Monday, Bunney was waiting for them.

Each was fined $100 for seining fish, $25 for possession of an illegal net and $2 in costs was assessed each.

Ray Wins Middleweight Championship 4th Time

By JACK HAND

CHICAGO (AP)—Sugar Ray Robinson brushed back the years for one electrifying burst of violence Wednesday night to knock out champion Gene Fullmer with a left hook to the jaw in 1:27 of the fifth round.

Thus the Sugar Man became the first man ever to win the world middleweight title four times.

Robinson, a 3½-1 underdog, softened up the 25-year-old champion with two solid right hand punches to the body and then drove home a terrific left that dropped Fullmer to the Chicago Stadium deck.

Writhing on the canvas, Fullmer attempted to get up. But he jack-knifed back on his face and was counted out by Referee Frank Sikora, the first time he had been stopped in his 44-bout career.

With this one flash from his glorious past, the man who once was called "the greatest fighter pound for pound in the world" avenged his unanimous decision defeat by the sturdy, bully-boy from West Jordan, Utah, at New York's Madison Square Garden Jan. 2.

This was a different Robinson from the inept, faded work man who clutched desperately in an effort to go 15 rounds only four months ago.

The bull-necked champ from the West had been banking away at Robinson's body and charging in fearlessly under Robinson's sporadic fire in the earlier rounds.

Referee Sikora had warned Fullmer for a cracking left hook that strayed low in the third round, but he did not take away any points under the "five-point must system" that is used in Illinois scoring.

Robinson's dramatic upset victory, a startling form reversal from his January effort, earned him a July match with welterweight champion Carmen Basilio that probably will be signed soon for the Yankee Stadium.

When Robinson finally got his chance to turn it on Wednesday night he let loose with both hands with deadening effect. When Sugar Ray tried to punch in bursts last January, Fullmer merely shook off the blows and came in stronger than ever.

Although the record book says Robinson will be 37 on Friday, he insists his correct age will be 36. In any event, he punched with his effectiveness of old in that one blinding flurry that ended Fullmer's reign at one day short of four months.

It was in the same stadium ring that Robinson first won the middleweight title from Jake LaMotta in 1951. It was here he also successfully defended against Rocky Graziano in 1952, a year after he had won it back from Randy Turpin in New York.

Once again Chicago was his lucky town in 1956 when he capped his comeback from retirement by knocking out Bobo Olson to win the crown the third time.

The action was close until the sudden ending. Fullmer waded in with wild right hand leads in the very first round while Robinson fought back in the first clinch without holding as he had done in their first bout.

Sugar Ray drew cheers from the crowd with a solid right uppercut midway in the first but Fullmer charged right back and was rounding him up in his own corner at the two-minute mark.

Just before the bell ended the first round, Robinson landed a hard left hook on the ever-charging Fullmer.

Fullmer tried to move in close in the second, nestling his head under Robinson's chin and showing no respect for Ray's punching power. A Robinson right uppercut zoomed to its target, yet Fullmer stormed in.

'He Got You'—Brother

By JOE MOOSHIL

CHICAGO (AP) — Bewildered Gene Fullmer, his middleweight crown lifted, stood in his dressing room Wednesday night with open hands and asked:

"What happened?"

"He got you with one, Gene," said Fullmer's kid brother, Don. "He hit you twice and then came up with that left hook. That did it."

Fullmer shook his head and muttered, "first time. That's the first time I ever got knocked out and I don't know how it happened."

Fullmer, a 25-year-old copper miner from West Jordan, Utah, called Sugar Ray Robinson "the greatest fighter I ever met. He has the best record and he's the only one that ever knocked me out."

"I wasn't over confident," said Gene, "it was just carelessness."

Fullmer's Manager Marv Jenson apparently had the answer for Fullmer's defeat.

"I think Gene wanted to make a spectacular fight because he was champion, and it cost him his championship," said Jenson.

"We warned him in the corner to fight like he had fought before; keep his hands up and crowd. But he didn't do it."

Fullmer said he "didn't think Robinson fought differently. I just dropped my hands and that was it. I never keep count but I thought I was ahead and my plan was to wear him down.

"I wanted a knockout," said Fullmer. "Anytime I can knock out a guy like that, "I'll take it."

Fullmer said that Robinson never hurt him during the fight. "He never hurt me at all," said the unmarked Fullmer, "because I didn't even know I got hit."

Fullmer said he'd like to have a return bout but Jensen pointed out that there was no "return" clause in the contract.

"The future is all up to Jim Norris," said Jenson. "We're leaving for New York where Gene makes a television appearance Sunday and after that our plans are indefinite."

Jim Norris is president of the International Boxing Club.

Robinson Behind

From Press Dispatches

CHICAGO—Gene Fullmer said after his loss to Sugar Ray Robinson Wednesday night he felt he was ahead on points when the end came in the fifth round.

Fullmer was right. Two judges and the referee had given Fullmer a 19-18 point margin going into the fifth round.

Ray tried to punch in bursts last January, Fullmer merely shook off the blows and came in stronger than ever.

Although the record book says Robinson will be 37 on Friday, he insists his correct age will be 36. In any event, he punched with his effectiveness of old in that one blinding flurry that ended Fullmer's reign at one day short of four months.

It was in the same stadium ring that Robinson first won the middleweight title from Jake LaMotta in 1951. It was here he also successfully defended against Rocky Graziano in 1952, a year after he had won it back from Randy Turpin in New York.

Once again Chicago was his lucky town in 1956 when he capped his comeback from retirement by knocking out Bobo Olson to win the crown the third time.

The action was close until the sudden ending. Fullmer waded in with wild right hand leads in the very first round while Robinson fought back in the first clinch without holding as he had done in their first bout.

Sugar Ray drew cheers from the crowd with a solid right uppercut midway in the first but Fullmer charged right back and was rounding him up in his own corner at the two-minute mark.

Just before the bell ended the first round, Robinson landed a hard left hook on the ever-charging Fullmer.

Fullmer tried to move in close in the second, nestling his head under Robinson's chin and showing no respect for Ray's punching power. A Robinson right uppercut zoomed to its target, yet Fullmer stormed in.

T-Men Lurk In Shower

CHICAGO (AP) — In what probably could be regarded as his greatest hour of glory, Sugar Ray Robinson Wednesday night found three Internal Revenue men waiting in his dressing room when he arrived from knocking out Gene Fullmer to regain the middleweight crown.

Possibly out of respect for the new champion, however, the trio of T-men did not speak to Robinson direct nor serve any papers. They were silent greeters, standing inside a shower stall while Robinson faced the cheering throng before him.

Earlier the federal men had tied up his purse for $23,000 for back income taxes. They refused to say why they were in his quarters.

This was the only mystery surrounding the after-fight festivities. There certainly wasn't any question about how Sugar Ray did his five-round job against the mauling Fullmer.

"I was just maneuvering him, trying to draw him in with a right," he said. "The right was something like a decoy. I wanted a clean counter shot with my left. I finally got it. I don't know how far it traveled but I'm sure Mr. Fullmer got the message. I just thank God that I got in the punch. I had no other strategy."

Robinson sat with a sort of up-in-the-clouds expression on his face. He gave everybody credit for his victory but himself.

"I owe much to millions of persons who had faith in me and prayed for me," he said, "and I owe so much to Joe Louis who has been with me all the time to give moral help and his knowledge of boxing.

"And I owe so much to Father Lang, The Rev. Jovian Lang of the St. Joseph Seminary in Westmont, Ill. for his spiritual help.

"And I owe so much to my wife, Edna Mae, who suffered untold miseries as I prepared for this fight."

Only the federal men standing nearby knew just how much Robinson owed the government.

Concordia Rips Shubert

SEWARD — Seward Concordia piled up 12 runs in the first inning and kept up the pace to take an 18-1 Class B district baseball semifinal victory over Shubert here Wednesday night.

The game was called by mutual agreement after four innings.

Concordia will meet the winner of the Nelson-Palmyra game next Tuesday to decide the state tournament representative.

Shubert	001 0— 1 5 7
Concordia	(12)42 x18 6 1

Sailors, Hall (1) and Joy; Fred Kroger and Dave Kroger, Oetting (2).

Five of the last 10 winners of Pimlico's $100,000 Preakness went on to become the horse of the year. They were Citation, Capot, Hill Prince, Nashua and Native Dancer.

Fremont Netters Blast Southeast

FREMONT—Fremont swept four singles matches and a doubles match to claim a 5-2 tennis victory over Southeast here Wednesday.

Results:

SINGLES

Mike Van Cleave (F) defeated Don Smith 6-2, 6-1; Neil Westfall (F) defeated Fred Kemp 6-3, 6-3; Dick Owens (F) defeated Gary Gibson 8-6, 7-5; Neil Higgins (SE) defeated John Nore 1-6, 7-5, 6-3; Don Eidam (F) defeated Chuck Wahl 6-2, 6-2.

FONDY, BAKER, LONG, WALLS IN SWAP

Card Trade Next After Cub Deal?

NEW YORK (INS) — The Chicago Cubs and the Pittsburgh Pirates, current tail-enders in the National League, made a two-for-two player trade Wednesday and another deal with the St. Louis Cardinals may be in the offing.

The Cubs gave up third baseman Gene Baker, 32, and first baseman Dee Fondy, 32, for Pirate first sacker Dale Long, 31, and outfielder Lee Walls, 24. There was no cash involved.

In Pittsburgh, Cardinal Manager Frank Lane huddled with the Pirate and Cub general managers and another swap was believed to be in the making.

Charley Grimm, Cubs vice president, explained the transaction by stating:

"We are badly in need of power."

Long set the baseball world afire early last season when he hit a record eight homers in eight consecutive games. He cooled down considerably although he wound up with a total of 27 for the season. He batted .263 in 1956 and has been benched this year for not hitting.

Walls, who was hitting above .300 this season, batted .247 last year.

Baker, formerly a second baseman, hit .258 last season while Fondy batted .269 and hit nine homers.

Cooper, Stan Pace Redbirds

PITTSBURGH (AP) — Walker Cooper rapped out a two-run pinch-hit homer and Stan Musial collected two doubles and scored twice Wednesday as the St. Louis Cardinals overpowered the Pittsburgh Pirates 9-2.

Bob Purkey, who started for the Pirates, held the Cardinals to two hits in the first five innings, but there was trouble from there on in for the Pirates.

In addition to Musial, Alvin Dark, Chuck Harmon and Wally Moon got extra base hits for the Cardinals. Harmon hit a run-scoring triple in the ninth. Dark and Moon hit doubles.

Willard Schmidt started the game for the Cardinals and picked up his first victory of the season although he was chased in the seventh when the Pirates started a rally and scored a run.

Rookie Eddie Kasko, started the trouble for Purkey when he hit a single with one out in the sixth. Musial followed with the first of his doubles and Del Ennis singled to score Kasko.

Four Big 7 Games To Be Telecast

KANSAS CITY (AP) — Four Big Seven Conference football games will be televised over a 6-state network next fall. It will be the first regional television coverage of league contests.

Don Davis, president of KMBC Broadcasting Co. of Kansas City, announced Wednesday that he had negotiated an agreement with the Big Seven television committee to televise the games.

Davis said KMBC-TV here will be the originating station for a network covering Colorado, Iowa, Oklahoma, Nebraska, Kansas and Missouri.

The telecast dates will be Oct. 12 and 26 and Nov. 9 and 23. The games to be covered will be selected later, Davis said.

Relief Star Wins Third For Tribe

CLEVELAND (INS) — Relief specialist Ray Narleski racked up his third victory of the season Wednesday with near perfect pitching in the eighth and ninth innings to enable the Cleveland Indians to defeat the last-place Washington Senators, 7-6.

Narleski, who saved Bob Lemon's first win of the season Tuesday night, relieved Don Mossi in the eighth and picked up his third win against no losses.

A sparse crowd of 1,943 at Municipal Stadium saw the Tribe come from behind by scoring three runs in the seventh inning. Vic Wertz drove home two runs to give the Indians their third straight victory.

Manager Charley Dressen of Washington used 20 players. Frank Brodowski, one of six Senator hurlers, was the loser.

GEN. DUKE

Favorite May Miss Classic

LOUISVILLE, Ky. (AP)—A stunning disclosure that Gen. Duke, favorite for the $125,000-added Kentucky Derby, was suffering from a foot ailment threw old Derbytown into an uproar Wednesday.

The Calumet Farm trainer, Jimmy Jones, said there was "better than a 50-50 chance the horse will start, but we may not know definitely until an hour or so before the race on Saturday."

The dramatic disclosure in Barn 15 at Churchill Downs this morning spread swiftly around the city, already humming with pre-Derby excitement.

Furthermore, the shock reached New Jersey, where a Michigan-bred, but Canadian-owned colt named Mr. Jive was being quartered. It was immediately announced that colt would be flown to Louisville to start in the mile and one quarter 3-year-old classic.

After Gen. Duke wound up second in a surprise finish behind Federal Hill in Tuesday's Derby Trial Stakes, the field seemed to have settled down to nine starters in America's most colorful horse scramble.

Gen. Duke first showed signs of soreness in the left front foot after winning the Florida Derby March 30, Jones said, but the ailment appeared to have healed. Jones said it appeared the injury may be a bruise or a slight separation in the heel of the Calumet star.

Braves Explode In Tenth

NEW YORK (AP)—The Milwaukee Braves crushed the Giants with three tremendous tenth-inning hits Wednesday — two of them home runs by Frank Torre and Bobby Thomson—and turned a tight ball game into a 5-1 rout.

The Giants, stopped by veteran southpaw Warren Spahn through 8⅓ innings, had tied it up in the ninth just before their relief pitching corps caved in.

Thus Spahn, who had beaten New York six out of seven times last season, kept the jinx alive and got credit for his fourth victory of the year. And the Braves got square for their 4-0 shutout at the hands of the Giants' Johnny Antonelli Tuesday night.

Up to the ninth it was a tight pitching duel with Spahn stopping all the Giants except Red Schoendienst and driving in the only run himself. Then rookie Ossie Virgil's 465-foot triple set up the tying run for the Giants and set the stage for a finish that must have raised some hair on the bald heads among the crowd of 5,961.

Drysdale Wins 2nd As Bums Tip Cubs

BROOKLYN (AP) — Don Drysdale, 20-year-old Brooklyn right-hander, Wednesday earned the honor of becoming the first Dodger pitcher to win two games this year when he stopped Chicago's Cubs with seven hits for a 7-2 victory.

The previous eight Dodger wins were scattered among eight pitchers.

T—2:15. A—3,214.

Two veterans, Roy Campanella and Gil Hodges, drove in a pair of runs each to help the 6-5, 189-pound Drysdale boost his record to 2-0. Campy sent home two runs with a single in the first inning and Hodges's double—the 1,400th hit of his career—scored two in the fifth.

Two errors in the first inning gave the Cubs and run and Ernie Banks' homer in the sixth with the bases empty provided the other. A bad throw to third by Campanella permitted Dee Fondy to score from third in the first inning.

'Little Chiefs' Association Plans Loop Registration This Friday And Saturday

A group of Lincoln businessmen in cooperation with the Lincoln City Recreation Department have been working to organize a new "kids" baseball league whose purpose is to provide organized baseball for boys between the ages of 6 and 11.

The group has called itself "The Lincoln Little Chiefs Baseball Association."

The league hopes to provide an opportunity for all boys, generally below the ages now served by the City League, to play regardless of ability or experience.

The association is planning on having two groups for competitive play—one for boys ages 6, 7 and 8 and the other for ages 9, 10 and 11. The boy's age on Sept. 1, 1957 will determine which age group he will play in.

It is planned to organize enough leagues, of from four to six teams each, so that games may be played in each boy's neighborhood.

In order to determine how many boys in this age group are interested in playing baseball this summer, the directors of the association have set this Friday, May 3 from 4 p.m. to 7 p.m. and Saturday, May 4, from 9 to 11 a.m. as registration times at the following centers.

Aegistration on May 3, 4 to 7 p.m.:

East of 27th between O and A streets—Randolph School, Eastridge School.

East of 27th between A and Pioneers Boulevard—Sheridan School, Southeast High School.

West of 27th and South of O Street—Prescott School, Irving School, Saratoga School.

West of 27th and North of O Street—Belmont School, Y.M.C.A.

North of O Street and East of 27th—Clinton School, Hartley School, Northeast Junior High School, Bethany School.

Registration of May 4, 9 to 11 a.m.:

Fire stations at 323 No. 10th, 2300 O St., 1225 F St., 4719 Prescott, 1345 South Cotner, 2601 No. 48th, 6032 Havelock.

Yankees Defeat Detroit, Nemesis Frank Lary 7-4

DETROIT (AP) — The New York Yankees, capitalizing on three Detroit errors and getting a splendid relief job from crafty Tommy Byrne, tagged their old nemesis Frank Lary with a 7-4 defeat Wednesday.

The world champions took the lead with three unearned runs off Lary in the third inning and went on to gain a split in the two-game set. Two Tiger errors, one by second baseman Frank Bolling and the other by shortstop Harvey Kuenn, along with hits by Yogi Berra and Hank Bauer did the damage.

Rookie Tony Kubek hit his first major league home run in the fourth inning off Lary and added two singles in pacing the Yankee batting attack.

Lary, who went into the contest with a 7-2 lifetime mark against New York, left after four innings. He was struck on the right hip by Gil McDougald's hard grounder in the fourth and suffered a painful bruise.

Byrne's victory was his 19th victory in 28 decisions with the Tigers. He took over from starter Art Ditmar in the fifth and set the Tigers down on two singles the rest of the way. The Yankee southpaw walked the leadoff batter and gave up a single to Bolling in the ninth but worked out of his only jam by fanning two of the next three batters.

Western—Don Picker, full blue.

Cobb To Attend

NEW YORK (AP)—Ty Cobb, who batted .367 during a 24-year career in the majors, will attend the Yankees' Old Timers Day festivities at Yankee Stadium on Saturday, July 27. Honored guests include two new Hall of Famers—Joe McCarthy and Sam Crawford.

Verdon Lake Is Restocked

VERDON (AP)—Bass, crappie and bluegills have been put into the recently renovated Verdon State Lake by a crew from the state department of game, parks and forestation.

Game warden Harland Huppert said the 150 large-mouth bass should finish spawning by mid-May, while the crappie and bluegills should finish by mid-June.

A number of trees also have been planted around the lake.

Archie Moore Gains Decision Over Kalbfell

ESSEN, Germany (AP) — Light heavyweight champion Archie Moore, weighing a hefty 206½ pounds, Wednesday scored an easy 10-round decision over Hans Kalbfell, Germany's third ranking heavyweight, in a non-title fight. Kalbfell weighed 210½.

The 40-year old American from San Diego floored Kalbfell twice for nine counts but the 27-year-old butcher was on his feet at the end.

"What Mower Shall I Buy?"

Relax Brother . . . Here is the answer!

Tom's Mower 2¼ H.P.-$69 Worth $99 ?
Dick's Mower 1½ H.P.-$39 Worth $150 ?
Harry's Mower 1¾ H.P.-$98 Worth $139 ?

KRESGE'S

21" ROTARY MOWER

$59.95

We checked and found it necessary to pay $79.95 or more elsewhere to get the wonderful features of this mower!

To Judge Power Mower Value Compare:
ENGINE HORSE POWER — BLADE LENGTH — SPECIAL FEATURES — STABILITY OF FRAME

So . . . Let's Compare!

Kresge's Mower Has a 4-CYCLE LAWSON ENGINE

A Lawson is the easiest starting lightweight engine made. The high tension magneto is dust and moisture proof. Every engine is tested under load for 20 minutes at the factory.

We looked at all kinds of engines and chose the Lawson because of its superior engineering and its national reputation for excellent service . . . we knew you couldn't go wrong!

Kresge's Mower is . . . 2½ HORSE POWER

Most mowers are 1¾ to 2¼ H.P. Kresge's is a full 2½ H. P. with 4 cycle construction—which gives it plenty of power to run smoothly in tall grass or weeds!

Kresge's Mower Cuts FULL 21" SWATH

A smaller mower takes longer to do the job—a bigger, heavier mower becomes clumsy, unwieldy This 21" size is ideal for maneuverability!

Kresge's Mower has a . . .

RIGID STEEL CHASSIS

Kresge's engine and drive shaft are mounted on a heavy steel chassis that prevents vibration, frame distortion, especially, on hill sides or rough ground.

KRESGE'S MOWER HAS THESE OTHER SUPERIOR FEATURES:

- Recoil Starter
- Four 8" ball bearing wheels make this mower roll easily in and out of ground depressions.
- Automatic power increase immediately when you hit heavy clumps of grass.
- Plastic grip "T" handle unbolts quickly so mower can be transported anywhere in your car trunk . . . with little effort by you!
- What about Mulching? Kresge's mower has an all-round enclosed base that enables the whirling blade to draw up cuttings and churn them to bits. An open front or open side mower will not mulch well.

Confidential to MEN ONLY (Wives love to run this mower.)

comes compactly boxed

Demo Digest Reviews Ike's 2nd Term As 'Absentee' Government

WASHINGTON (AP) — The Democratic Digest Wednesday reviewed the first 100 days of President Eisenhower's second term and concluded the administration has given the country "absentee government."

That is the title of the lead article in the May issue of the Democratic National Committee's official organ. It seeks to show the President "is no longer interested in his job" and pictures him as "irritable, ailing and nervous."

The article is subtitled "the 100 Day Vacation." The cover page shows traveling bags and golf clubs on the White House lawn. A sign asks that mail be forwarded to "Gettysburg, Cypress Point, Thomasville, Augusta, Camp David, Burning Tree, Palm Springs and Denver."

The Digest says a "lot of history has flowed around Ike since his first 100 days (of the first term), but he goes right on steadfastly whanging golf balls . . ."

"At one point during Ike's 'second' 100 days," the magazine says, "the President, the Vice President and the Secretary of State were all out of the country at once. But it really didn't matter — you could hardly tell the difference."

'Nobody'

"'Even when they're in the store,'" it quotes one unnamed Democrat as saying, "'nobody's minding it; we still have absentee government.'"

Continuing, the article declares: "Emerging from the first 100 days of the second term is an image of an irritable, ailing and nervous President who doesn't concentrate on his work, takes many opportunities to get away from his desk, is nettled by the criticism he is getting, who is uninformed and isolated by a 'palace guard' that feeds him only one-page memos, who is rapidly losing control of his party, and has already lost around the world much of the respect which he built up during World War II."

"From this image," the article goes on, "has come a whole flood of rumors about Ike's poor health and the possibility of his retirement."

The President at a news conference last April 3 dismissed as "the worst rot that I have heard" reports that he intends to step out and turn his job over to Vice President Nixon.

Press Peeting

The Digest article says the "best measure of how serious the drift in Washington and the absence of leadership in the White House have become is the fact that the President had to go before his press conference and make the unprecedented statement that he was not thinking of retiring . . ."

Elaborating on the claim that Eisenhower is "isolated" by a "palace guard," the article says:

"Although the White House maintains that the reason Ike is shut off from the rest of official Washington is so that he can conserve his limited energy for his job, there is considerable feeling at home and abroad that the real purpose is to keep from exposing a President who is no longer interested in his job."

Mrs. Ann Nolde Dies At Age 82

Mrs. Ann Elizabeth Nolde, 82, of 1221 J, Apt. 5, died Wednesday.

Born at Bedford, Pa., she had been a Lincoln resident 28 years. Previously, she had lived 49 years in the Sutton community and four years at Burwell.

She was a member of Rebekah Lodge 34 at Sutton.

Surviving are three daughters, Miss Adeline Nolde and Mrs. Dora Glantz, both of Lincoln, and Mrs. Esther Trautmann of Harvard, Neb.; four sons, David of Worthington, Minn., Reuben and Harry, both of Sutton, Robert of San Diego, Calif.; sister, Mrs. Mollie Cundall of Douglas, Wyo.; brother, John Dennis of Grand Island; 18 grandchildren and 36 great-grandchildren.

Ban Arrow Hunt

NAIROBI, Kenya (INS) — Nairobi turned thumbs down on the reported plan of a Texas oilman to win a $100,000 bet by killing an east African elephant with a bow and arrow. William Negley, the Texan, previously bagged a Belgian Congo elephant with his trusty bow and arrow. But his application for a Kenya license was opposed by N. M. Simmons, chairman of the Kenya Wildlife Society.

350 Parents Of NWU Students To See Fete

Some 350-400 parents of Nebraska Wesleyan University students are expected on the Wesleyan campus Friday for the sixth Parents Day program.

Honors Day and May Fete ceremonies will coincide with the parents' program.

Cairo Paper Publishes Scathing Attack On U.S.

CAIRO (INS) — The influential mass-circulation weekly "Akher Saa" published Wednesday the most scathing denunciation of the United States to appear in an Egyption newspaper since the U.S. withdrew its offer of aid for the Aswan Dam project last summer.

"Akher Saa" charged the U.S. was trying to force the Eisenhower doctrine on Jordan and was using the Sixth Fleet to intimidate the Amman government.

U.S. Ambassador Lester Mallory was called the "American Glubb." Lieut.-Gen. John Bagot Glubb was kicked out as chief of Jordan's Arab Legion a year ago on the crest of a Nationalist wave of anti-Westernism.

Four pages of bitter attack on what was termed an American "conspiracy" were written by editor Mohammed Hassanein Heikal, who is believed to reflect Egypt's top policy line. He is one of President Gamal Abdel Nasser's closest friends.

Heikal said:

"The United States is doing her best in Jordan to separate King Hussein from his people. . .

"The United States is preparing for the Eisenhower doctrine in Jordan by collaborating with those in the palace who trade in political influence and those who trade in hashish."

The article also charged U.S. collaboration with "the worst of Jordan's rotten political men and a group of Bedouin shiekhs who once worked for Glubb and now have switched allegiance to U.S. Ambassador Mallory."

(Bedouin units of Jordan's Arab Legion bulwarked King Hussein's struggle against leftist and pro-Egyptian forces in the recent governmental crisis).

Heikal said the U.S. became angry when the government of Premier Suleiman Nabulsi, ousted by Hussein April 10, decided to recognize Russia. Heikal questioned this reaction inasmuch as the U.S. maintains diplomatic relations with Russia.

Challenging Washington statements that the U.S. wants to help Hussein, Heikal asked:

"Against whom will the U.S. Sixth Fleet help protect Hussein? Against the people of Jordan?"

$37,000 For LAFB Land Buying Asked

A new Defense Department request for congressional authority to spend $1½ billion on military construction includes a request for expenditure of $37,000 at Lincoln Air Force Base.

That amount would be used to purchase land from Ralph L. Reed for an overrun on the extended runway and for a clear zone at either side, according to Col. Henry C. Godman, LAFB commander.

Also included in the request is $7,681,000 for Offutt Air Force Base at Omaha, Strategic Air Command headquarters, and $249,000 for the Sioux Ordnance Depot at Sidney, Neb.

Offutt funds, the Air Force said, would provide for a variety of projects including housing, land acquisition, grounds improvement, training, maintenance, operational and communication facilities.

The $1,561,338,000 asked for military construction in the U.S. and overseas is $450,945,000 less than the total asked for the current fiscal year and $561,298,000 below the amount voted by Congress.

Just over half the total is for the Air Force.

State Press Ass'n Renames Scofield

Vern Scofield has been re-named general manager of the Nebraska Press Assn., a position he has held since 1951. The announcement was made by the NPA board of directors which held its first meeting of the fiscal year in Lincoln, where the NPA office is located.

Scofield

Scofield, who was graduated from Neligh High School and attended the University of Nebraska and University of Minnesota, published the weekly Neligh News before entering the service during World War II.

Then he was director of public relations for a five-state midwest district of the Veterans Administration. He came to Lincoln from Minneapolis in 1948.

Two Lincoln Firms File Incorporation Papers

Two Lincoln corporations filing articles of incorporation with the secretary of state's office Wednesday were:

Industrial Sheet Metal Works of Lincoln, Inc., listing an authorized capitalization of $50,000, incorporated by Peter J. and Mollie G. Dittenber, both of Lincoln.

Kwik Kafe Co. of Lincoln incorporated by Leland Schainost of Lincoln and Roy Schainost of Fairbury. Purpose of the corporation is to operate the business of coin-operated vending machines. Authorized capitalization is $150,000.

Paul Butler Has 'No Intention' Of Resigning Post As Demo Chief

WASHINGTON (INS) — Democratic National Chairman Paul Butler disclosed Wednesday that he has "absolutely no intention" of resigning his post and will delay until next year his decision whether to run for the Indiana Senate seat of GOP incumbent William Jenner.

Butler, on the eve of the full-dress national committee meeting here this week end, emphatically denied reports that he has lost the support of speaker Sam Rayburn and will be ousted from the chairmanship.

"Sam Rayburn is the best friend I have in Washington," Butler told this correspondent. "He is backing me to the hilt. So are most of the national committeemen."

Fireworks are anticipated at the upcoming meetings which will bring former President Truman titular party leader Adlai Stevenson and most Democratic governors to Washington.

At the $100-a-plate dinner Saturday night, the featured gubernatorial speaker will be Michigan's G. Mennen (Soapy) Williams who is anathema to southern Democrats because of his strong backing from AFL-CIO president Walter Reuther.

Butler said he expects a stormy three-day session over Dixie Sen. John McClellan's maneuver to tack a right-to-work rider on pending civil rights legislation.

The Friday meeting of the national committee will be reminded that any right-to-work legislation is in "absolute conflict" with the pledge unanimously approved by the Democratic platform committee in August 1956.

Southern members who favor right-to-work statutes and the Taft-Hartley bill are planning a vigorous fight on a proposed set of rules which would empower the National Committee to appoint special staffs to implement the Democratic platform pledges.

Butler said Southern members want to forget about the platform in the four-year periods between conventions, because they oppose its "liberal" stand for civil rights, FEPC, and repeal of Taft-Hartley legislation.

Both Dead

MILAN (AP)—Mrs. Angela Croci, 70, was knocked down and killed by a motorcycle, neighbors entered the house to inform her husband, 73-year-old Giovanni Croci, and found him dead of a heart attack. Doctors said the old couple died within minutes of each other.

How Much Money Are You Saving?

LOS ANGELES (AP) — Having trouble saving money? Then consider California's Japanese farm workers.

Out of average earnings of $3,000 a year—they manage to save 90 per cent, the State Department of employment said Wednesday.

Their basic expenses: $1.75 a day for room and board in the barracks-type housing units and $250 to $800 for passage to and from Japan.

When they return to their homeland the savings are converted into yen at 360 yen to the dollar. They usually have enough to start a small business or farm in Japan.

And how much did you save last year?

Main Feature Clock

Stuart: "The Vintage," 1:10, 3:20, 5:20, 7:30, 9:40.

For Dandruff-Itchy Scalp Wife Says Baker's Best

BEATRICE, Nebr.—Mrs. E. M. Graham, 906 N. 10th, says: "My husband had dandruff and itchy scalp very bad. We kept hearing so much praise for Baker's Hair Tonic that we decided to try a bottle. In just a short time it gave him relief. We keep it all the time now, and when the tormenting twins, dandruff and itchy scalp, show any sign of trouble, an application of Baker's will take care of them in a hurry."

The Maker's Guarantee:
Baker's Hair Tonic will do the job on dandruff and itchy scalp. Baker's Lathernist Shampoo will make your hair look better, or Money Back.—Adv.

NU Students And Faculty Set Spring Weekend Celebration

University of Nebraska students and faculty members will push aside the books this week end in honor of spring.

The festivities will open Friday morning with Spring Day events, followed by the Farmers' Fair in the afternoon, a street dance in the evening and Ivy Day festivities Saturday.

The Friday program will open at the College of Agriculture campus at 8 a.m., with a parade and horse show. Events, such as tug-of-war, men and women's wheel barrow races and chariot races, will begin at 9 a.m., and continue until noon.

A feature of the morning program will be peanut-pushing, pie-eating and egg-catching contests for faculty members at 9:30 a.m.

A barbecue will be held at noon, followed by the Farmers' Fair rodeo.

At the city campus, a carnival will open behind the Student Union building at 4:30 p.m. A free street dance will be held at 14th and R streets from 8:30 p.m. to midnight.

Dick Hagemeier of Pickrell is chairman of the program.

Wilbert

Homecoming Planned

WAYNE, Neb. — Homecoming festivities at Wayne State Teachers College will be held Friday, June 28. The classes of 30 and 25 years ago and those of 10-year periods will be especially honored.

TELEPHONE, POWER ACTION OK'D

The Nebraska Central Telephone Co., of Gibbon was granted authority Wednesday by the State Railway Commission to discontinue toll charges between its Comstock and Sargent exchanges.

Also included in the Commission ruling is authority for the company to substitute extended area service to all subscribers between these two exchanges when Comstock is converted to dial operation.

In other action, the Commission granted authority to the following power organizations to construct, operate and maintain electric transmission lines:

Omaha Public Power District in Dodge County.
Dawson County Public Power District, Lexington, in Gosper and Dawson Counties.
Cornhusker Rural Public Power District, Columbus, in Boone, Nance, Wheeler, Greeley, Platte, Colfax, Stanton, Antelope and Merrick Counties.
Howard Greeley Rural Public Power District, St. Paul, in Howard County.
Niobrara Valley Electric Membership Corporation, O'Neill, in Holt County.

"New Tablet Relieves Painful Monthly Cramps...Brought Me Greater Relief Than Aspirin!"

Model Photo

"Couldn't sleep, was all on edge, could hardly put up with my 2 babies," adds Mrs. H. Y., Russell, Ky. "But Pinkham's Tablets were a real blessing! Gave soothing relief the *first* day!"

For millions of women who suffer tortures of cramps and nervous tension every month, a new day has dawned! An amazing new tablet, developed especially to relieve this female discomfort, brings *greater relief than aspirin* for these miseries!

Relief for 3 out of 4 tested!

Doctors report amazing results. For 3 out of 4 women tested, pains and cramps were stopped or strikingly relieved. Even on the *first* day, many had no nagging headaches, backaches, other functional distress. Were less jittery *before* their period.

This new discovery offers more relief than aspirin because it contains not just 1 or 2 ingredients but a unique *combination* of medicines. Unlike "general purpose" remedies, it acts on the *cause* of distress. Has remarkable power to calm uterine contractions; also works through a woman's sympathetic nervous system.

Called "Lydia Pinkham's Tablets," they're at all drugstores without prescription. Try handy Pinkham's Tablets. See if you don't feel worlds better! See if you don't escape much of the irritability and discomfort—before and during those "difficult days." (Also liquid Lydia E. Pinkham's Vegetable Compound.)

Friend Man Accepts West Coast Position

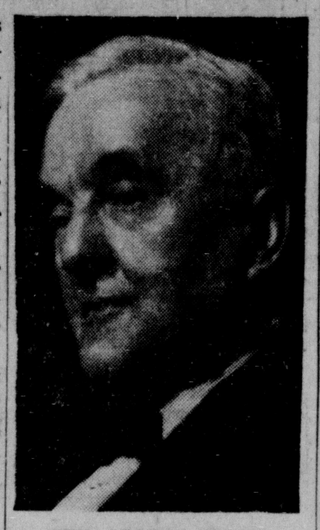

FRIEND, Neb.—Dean Cunningham of Friend, a senior at Doane College at Crete, has contracted to teach mathematics and science in the schools at Fortuna, Calif., this coming school year. He plans to attend Creighton University in Omaha this summer before going to the west coast.

Sen. Norris Choice Of Scholars In Poll

. . . Nebraskan Favored Over Taft

WASHIINGTON (AP) — Scholars polled on their choice of "outstanding" American senators preferred George Norris of Nebraska to Ohio's Robert A. Taft.

A qualified source said Wednesday Norris actually was tied for first in the poll, taken by a special Senate Committee. Taft, he said, ranked ninth.

SEN. GEORGE NORRIS

Nebraska News

But the committee, in naming its selection for the outstanding five," left Norris out and put in Taft, the No. 1 choice of present-day senators. Norris, however, did receive special mention.

Agreed On Four

On the other four "outstanding" scholars were in agreement: Henry Clay of Kentucky, Daniel Webster of Massachusetts, John C. Calhoun of South Carolina, and Robert M. LaFollette Sr. of Wisconsin.

The committee, headed by Sen. Kennedy (D-Mass), took the poll of historians, political scientists and scholars to help it in deciding on the five senators whose portraits will hang in the Senate reception room.

In that poll, Norris was tied with Clay and Webster with 84 votes each. Then came Calhoun with 61 and LaFollette with 44.

They were followed by Stephen A. Douglas of Illinois with 30, Arthur Vandenburg of Michigan with 25, Thomas Hart Benton of Missouri with 24.

Taft followed Benton with 22 votes, and Robert Wagner of New York was just behind Taft with 20.

Higher School Levy Forecast By Oakes

NORTH PLATTE, Neb. (AP)—Supt. Otto Oakes of the North Platte school system told business men that "as a guess I expect the 1957-58 levy to be between 31 and 36 mills compared with the current 26.76 mills."

Salary boosts, equipment, and supplies account for part of the increase, he said.

Texas Mishap Kills Omahan

LOCKHART, Tex. (AP) — Two persons were killed and two injured, one seriously, in a car-truck collision 10 miles north of here.

Killed were W. J. Foxley, about 52, of Omaha, Neb., and John Bailey, 64, Sulphur Springs, Tex.

Lester H. Ryon of Kansas City is in serious condition in a Lockhart hospital. He has two broken legs and internal injuries.

Also in the hospital with minor injuries is the truck driver, Henry Admek of Schulenburg, Tex.

Foxley had extensive cattle ranching interests in Montana and South Dakota and headed a livestock commission company and a large feed lot in Omaha.

Solons Hike Cigarette Tax 1 Cent

First Boost In State Since 1947

A bill to hike the state tax on cigarettes from three to four cents a package mustered just one more affirmative vote than the absolute minimum required and passed 23-15 in the Legislature Wednesday.

The Nebraska cigarette tax has stood at three cents a package since the state tax first was imposed under a law passed in 1947.

Sen. Terry Carpenter, introducer of the measure, LB 130, obtained legislative consent to insert a statement in the Legislative Journal pointing out it is not the intent to place the added tax on stocks in retailers' hands at the time the bill takes effect.

Clause Stricken

As introduced, the bill carried the emergency clause which would have made it effective on the governor's signature.

But 29 "aye" votes are needed on a bill carrying the emergency clause, so LB 130 in the form it was adopted had the emergency clause stricken.

Also passed on final reading (Emergency clause):

LB 386 (Tews)—correcting and revising statutes to reporting of traffic law convictions to the Motor Vehicle Division. (41-0).

LB 429 (Waggoner, Portsche, Liebers)—permitting Lincoln School District to use a different budget form than that supplied by the commissioner of education. (41-0).

LB 474 (Wagner, Waggoner, Tyrdik)—Designating Nov. 11 of each year as Veterans Day. (41-0).

LB 395 (Thompson)—adding Harlan County and eliminating Antelope and Boone Counties from the Nebraska brand inspection area. (40-1).

LB 47 (Lautenschlager, Liebers)—revising method of computing tax credit on motor vehicles upon transfer of ownership. (E). (38-2).

LB 506 (McGinley)—increasing from $20,000 to $30,000 the amount of the Board of Control's revolving fund to set blind persons up in business. (40-0).

LB 329 (Bahensky)—eliminating restriction against aliens hunting in Nebraska. (41-0).

HOW THEY VOTED

The vote on LB 130, the cigarette tax hike bill:

For (23)—Beaver, Bridenbaugh, Burbach, Carpenter, Claussen, Cole, Dame, Dooley, Fenske, Foote, Klaver, Lautenschlager, McGinley, McHenry, Nelson, Portsche, Simmons, Stryker, Swanson, Syas, Tews, Williams, Wood.

Against (15)—Autenkamp, Bahensky, Bedford, Bixler, Donner, Jensen, Kotouc, Liebers, Moulton, Otto, Thompson, Tyrdik, Vogel, Wagner, Waldo.

Absent or not voting (5)—Adams, Munnelly, Pizer, Ruhnke, Waggoner.

95% Of City Elms Might Be Lost—Ager

Hiram Club members were informed by Park Superintendent James Ager of Lincoln's possible loss of up to 95 per cent of its elm trees with the coming infestation of Dutch Elm disease.

It is going to be up to the people and organizations of Lincoln, Ager said, to either save the valuable elms or let them die. The killing disease, carried by the European Elm Bark Beetle which is already in Lincoln, is expected to hit the city within four to seven years, Ager said.

A program which will level off to an annual cost of about $100,000 a year, he said, will be needed to fight the disease. The alternative, he said, is to let the trees die and spend millions of dollars on their removal.

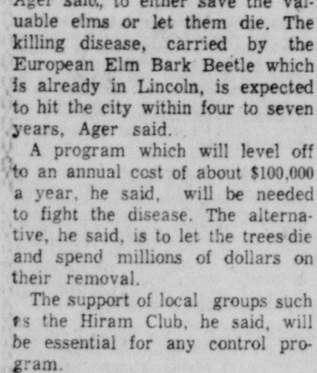

The support of local groups such as the Hiram Club, he said, will be essential for any control program.

Weather Ahead

Extended forecast for Nebraska:

Temperatures will average 8 to 15 degrees above normal. Normal highs range from 65 to 70, normal lows range from 40 to 45. Only minor day to day temperature changes are expected. Showers about Thursday or Friday and again Sunday or Monday will total .10 of an inch moisture.

Oils Strong, Pace Stocks

NEW YORK (AP) — Oils surged ahead strongly Wednesday, pacing the stock market as a whole to a fair-sized recovery movement.

Aside from the oils, there was little in the way of strong group activity. Aluminums staged some good advances. Steels, after a lackadaisical performance early in the session, made small gains.

Advances by pivotal issues ran from fractions to around $3. Losses were generally kept within $1 or so. But there was an ample assortment on the downside.

It was a nudging, irregular advance and it left the market on balance just about where it was a week ago—that is, slightly below the year's highs reached last January. Wall Street analysts continued to view the market as being in a rather ticklish position because of this nearness to the highs, where an amply supply of stock should be available from those taking profits.

The oils apparently were stimulated by the better political situation in the Middle East.

The Associated Press average of 60 stocks rose 30 cents to $180.90 with the industrials up 40 cents, the rails up 30 cents and the utilities up 20 cents to a new 1957 high.

Volume totaled 2,310,000 shares, an improvement over Tuesday's 2,200,000 when the market sagged slightly.

The American Stock Exchange was irregular on volume of 830,000 shares compared with 760,000 Tuesday.

BUTCHER HOG PRICES RISE

OMAHA (AP)—Butcher hog prices advanced mostly 50 cents Wednesday. Some sales went ahead 50 cents under good shipper demand. Fed steers were steady to 25 cents higher and heifers steady to strong. Slaughter lamb prices were firm.

OMAHA

Hogs: Salable Wednesday 6,200; barrows and gilts strong to mostly 25 higher; instances 50 higher; sows steady to 25 higher; mixed lots U.S. No. 1 and 2 grade butchers 190-240 lbs. 18.25 to mainly 19.50; liberal showing at outside price; several lots 18.60 and 18.65; around 40 head 18.75; mixed lots U.S. No. 1, 2 and 3 grades 190-260 lbs. 18.00-18.25; weights 270-300 lbs. 17.25-17.75; sows 300-550 lbs. mixed grades 14.75-16.75; few lots 17.00 and 17.25.

Cattle: Salable 8,000; calves 100; receipts will exceed estimates by around 400 head; fed steers slow, steady to 25 higher; heifers steady to strong, quality improved; cows steady; bulls, vealers and killing calves slow, steady to weak; stockers and feeders scarce, steady; mostly prime around 1,500 lb. fed steers 24.25; some held higher; choice steers 22.00-23.50; good to low choice 19.00-21.50; good and choice heifers 18.50-23.00; several loads held higher; utility and commercial cows 12.50-15.00; canners and cutters 10.75-12.00.

Sheep: Salable 2,200; trade moderately active; early sales old crop slaughter lambs steady to strong; shorn slaughter ewes steady; feeder lambs scarce unchanged; choice spring lambs 24.50; part deck choice and prime 91 lb. wooled lambs 23.50; several loads mostly choice fall to summer shorn lambs 22.50-22.75; cull to good shorn slaughter ewes 2.50-6.50.

CHICAGO

Hog prices were generally higher Wednesday with butchers 25 to 50 cents up and sows steady to 25 cents higher.

Butcher hogs sold up to a top of $18.85, the highest since April 22, in an active trading session. Mixed No. 2 and 3 grades scaling 190 to 240 pounds brought $18.00 to $18.50. Some No. 1 to 3 grades weighing from 190 to 225 pounds sold from $18.40 to $18.75. The top price of $18.85 was paid for a few No. 1s scaling 210 pounds.

Mixed grade sows scaling 350 to 550 pounds brought from $14.50 to $16.25.

Slaughter steers were 25 to 75 cents higher in a market described as the most active in several weeks. Heifers were strong to 50 cents higher. Cows were moderately active and bulls steady.

The practical top of the session—$27.25—was on a load of average prime 1,275 pound steers. Steers scaling around 1,300 pounds brought $27.50. Average low to prime brought $27.25 and high choice and prime $25.00 to $26.50.

The sheep market was steady to strong and trade was moderately active. Good and choice shorn lambs sold from $21.50 to $22.00 and good and choice spring lambs from $22.50 to $24.00.

Hogs: 6,000; generally 25 to 50 higher, closed at full advance; mixed No. 2-3, 190-240 lbs. 18.00-18.50; No. 1-3, 190-225 lbs. 18.40-18.85; No. 2-3, 250-270 lbs. 17.75-18.00.

Cattle: 14,000, calves 300; action on slaughter steers and heifers best in three weeks; fed steers 25 to mostly 50 higher, extremes as much as 75 higher; few heifers strong to 50 higher; vealers steady; high choice and prime steers 25.00-27.75; few loads mostly prime around 1550 lbs. included at 25.00; most choice steers 23.00-24.50; good and low choice 19.50-22.75; prime 1000 lb. fed heifers 24.50; few loads 24.00-24.25; most choice heifers 22.00-23.50; good and low choice 19.00-22.00; choice to prime vealers 26.00.

Sheep: 700; shorn lambs steady to strong; not enough wooled lambs on hand to test prices; good and choice shorn lambs 21.50-22.00; good and choice spring lambs 22.50-24.00.

ST. JOSEPH

Hogs: 4,000; barrows and gilts fully 25-50c higher; sows very uneven, steady to 25c or more higher; mixed U.S. No. 1-3 grade 190-250 lbs. butchers $18.25-18.50; about 40 head near 220 lbs. $18.65; 125 head 200-230 lbs. $18.75; sows $15.00-17.00.

Cattle: 2,800; calves 200; fed steers yearlings and heifers steady to 25-50c higher; extremes up more; cows steady to strong; spots strong to 25c higher; bulls steady; calves and vealers mostly steady; stockers and feeders steady; spots stronger; load high choice 1,180 lbs. fed steers $24.00; short load around 1,150 lbs. $23.50; average to high choice fed steers $23.25; good to average choice $20.35-23.00; most sales good and choice mixed yearlings and heifers $20.50-22.25; a few loads choice heifers $22.40-22.50; utility and commercial cows $12.75-15.50; canners and cutters $10.50-12.75.

Sheep: 2,000; slaughter lambs steady; mostly choice spring slaughter lambs $24.50; few lots good to choice $24.00; good shorn lambs with No. 1 pelts $21.00; fall shorn lambs $22.00; lot or so wooled lambs $22.00; cull to choice slaughter ewes $4.00-8.00.

SIOUX CITY

Hogs: 4,500; barrows and gilts 25-50 higher; sows steady to 25 higher; mixed No. 1, 2 and 3 190-240 lbs. barrows and gilts 18.25-18.50; mostly No. 1 and 2 around 200-230 lbs. 18.60-18.75; small lot No. 1 butchers 18.85; mixed grade sows 500 lbs. down 14.75-16.75.

Cattle: 4,400; calves none; slaughter steers mostly 25-50 higher; particularly on choice grade; heifers fully steady to strong; cows fully steady to strong; bulls steady; stockers and feeders unchanged; short load mostly prime around 1,250 lbs. fed steers 25.00; 2 loads high choice and prime 24.00; bulk choice 22.00-23.25; good and low choice 18.75-21.75; most choice heifers 21.50-22.50; 2 loads high choice 22.75; 2 loads high choice and low prime 23.00; good and low choice 18.00-21.25; utility and commercial cows 13.00-15.00; canners and cutters 11:00-12.75.

Sheep: 600; slaughter lambs strong to 50 higher; some 75 higher; short load mostly choice No. 1 pelt lambs 22.00; deck good and choice No. 1 and 2 pelts 21.00; deck good and choice 98 lbs. No. 2 pelts 20.50; good and choice spring lambs 23.50; cull to good slaughter ewes 2.50-6.50.

KANSAS CITY

Hogs: 2,000; barrows and gilts generally 40-50 higher; sows steady to strong; mixed U.S. No. 1-3 grade 200-250 lbs. barrows and gilts 18.15-18.50; around 150 head No. 1 and 2 200-225 lbs. 18.60-18.65; sows 14.75-16.00.

Cattle: 1,500; calves 200; very limited mid week supply; mostly steady on all classes; small lots high choice and prime fed steers yearlings 23.50 and 24.00; scattered sales good and choice fed heifers 19.50-23.00; 2 loads high choice and prime fed heifers 23.50; good and low choice heifers and mixed yearlings 18.50-21.00; utility and commercial cows 13.50-15.50; canners and cutters 10.50-13.25.

Sheep: 1,500; slaughter lambs steady to 25 instances 50 higher; 2 loads good to prime Arizona spring lambs at 24.00; similar grade lambs trucked in 84-93 lbs 24.25-

A 'Lighter' U.S. Rifle Adopted

. . . M-1 Replaced

WASHINGTON (INS)—The Army adopted Wednesday a new lightweight American-made rifle and announced a sharp reduction in the types of small arms to be used by GI's.

The new rifle, which weighs a pound less than the standard Garand M-1 and fires the cartridge standardized for North Atlantic Treaty countries, has been under study and test for the last five years. It was finally adopted in preference to the Belgian "T-48," which has also been under study.

The Army said that the types of small arms will be reduced from seven to two. The Browning Automatic Rifle (BAR), the .30 calibre Carbine and three types of submachineguns are being dropped under the replacement program, which will take several years to complete.

Two Barrels

The new rifle, designated the "T-44," can be equipped with either a light or a heavy barrel. It was developed at the Army Ordnance Plant at Springfield, Mass.

The announcement said: "The new system offers many advantages. It gives the modern Army a better and lighter rifle and a lighter machinegun (the M-60, recently adopted)."

The calibre of the new rifle is the same as the Garand, but the cartridge is shorter and lighter.

Farms for Sale 75

Choice 200 Acre Farm
All Can Be Irrigated
Hamilton County

This farm is improved, with heavy clay soil and will irrigate with very little leveling. There is 70 acres in the soil bank program this year, which will be summer fallow and available for fall wheat if sold in the next 30 days, and possession will be given for the whole farm, March 1, 1958. If interested in a good first class farm get busy and look this place over. It is worth the price for a home or investment. Further information see or write—

Members Urged To Go Nuclear

. . . Germany In Squeeze

BONN, Germany (AP)—The civilian chief of the North Atlantic Treaty Organization (NATO) said Wednesday its military planners soon will advise the 15 member nations to equip their forces with nuclear arms.

Britain's Lord Ismay, who quits his post as secretary general May 14, emphasized at a news conference that no member will be forced to accept this advice.

But it would be "very dangerous event," he warned, if any important NATO power refused nuclear equipment for its air, land and sea forces.

"Our alliance in terms of sheer numbers could never successfully oppose those of the Soviet Union without the use of nuclear weapons," Ismay said.

Begins Thursday

The secretary general was previewing the tasks facing the NATO Council of Foreign Ministers, which begins Thursday a three-day exchange of views on world affairs with special emphasis on Russia's threats and possible thrusts in Europe and the Middle East.

Secretary of State Dulles, arriving in Bonn abroad a U.S. Air Force plane from Washington, said the foreign ministers "will seek to assure to our peoples the blessings of justice and of peace."

Want An Antique?

NEW YORK (AP) — Want to buy an old elevated railway car? The city has 47 it wants to sell. Twenty-six of them date from 1888. The newest was built in 1906.

Union College '32 Alums To Be Honored

Members of the Class of '32, celebrating their "silver anniversary," will be honored guests at the annual alumni homecoming banquet at Union College, Thursday at 7:30 in the college cafeteria.

About twenty 1932 alumni are expected to attend.

Speaker of the evening will be Russell Strom, Lincoln attorney and Union College alumnus, and Dr. Chester Norman, Lincoln physician and president of the Alumni Association, will be master of ceremonies.

A program of music, readings and a skit will be presented.

Homecoming events will continue Friday with the traditional ceremony—the hanging of the Golden Cord—at Union College Auditorium at 8 p.m. One cord is hung for each missionary gone out from the College each year and this year there will be about 26.

Arthur Mozart, alumnus from Ft. Worth, Tex., a returned missionary, will be the speaker.

On Saturday, the alumni will have charge of religious activities on the campus. The Rev. D. L. Hassenpflug of Atlanta, Ga., will lead worship services at 11 a.m. in the College auditorium.

Other special homecoming activities will include a sacred band concert by the college concert band Saturday afternoon, under the direction of H. Lloyd Leno, alumnus.

And on Saturday evening at 8:45 the college music department will present a musical program at the college auditorium.

Repairman Hurt At State Hospital

Glen Dwyer, 49, of 2735 Lincoln, was listed in fair condition at St. Elizabeth Hospital Wednesday after he suffered severe head cuts and possible leg injuries in a fall from a scaffolding at the Nebraska State Hospital.

Hospital Superintendent L. F. Spradling said the man was working on a boiler in the power plant building when he plummeted 16 feet from a scaffolding to the concrete floor below. He said the man was given immediate attention by a state hospital physician.

U.N. GROUP IS TOLD TRANQUILLIZERS CAN CAUSE ADDICTION

UNITED NATIONS, N.Y. (AP) — Four nations called on the U.N. Commission on Narcotic Drugs to warn that excessive use of "tranquillizer" drugs can cause addiction.

Egypt, France, Turkey and Yugoslavia introduced a resolution recommending that U.N. member governments take action to prevent the abuse of barbiturates and "tranquillizers." The resolution cited the World Health Organization (WHO) as its authority on the danger of addiction.

Kiwanis Honors 5 Lincoln Drivers

Five Lincoln drivers were honored at the 25th annual Kiwanis Safe Driver award dinner Wednesday for more than 25 years of driving without an accident.

Receiving awards were A. T. Albers and A. C. King of the Lincoln Telephone and Telegraph Co.; E. J. McGee of Consumers Public Power District; Glenn Suiker of the Lincoln City Park Department, and Solomon Van Busch of the City Sanitary Garbage Co.

Glenn Yaussi, Kiwanis president, presented awards and gave their history. The 539 awards presented represented six million miles without an accident.

Other speakers included Lloyd C. Jenkins and Mayor Bennett Martin. Nearly 400 drivers attended the dinner.

500 Per Cent Increase

THE HAGUE (INS) — The Dutch state scientific laboratory reported that radioactivity in the Netherlands' atmosphere increased 500 per cent during the April 24-26 period. The increase apparently was caused by a series of Soviet nuclear test explosions. The laboratory said the radioactivity level is now normal.
